

FRIDAY, MAY 19

SYMPOSIA

7:30 – 9:00 AM

CHANGING LANDSCAPE OF THE ALZHEIMER'S DISEASE DIAGNOSIS

Room: 221

CME/CE, CMD Clinical Credit: 1.5

Track: Clinical Practice

*Sponsored by the Clinical Research in Dementia Special Interest Group***Co-Moderators:** Esther S. Oh, MD, PhD & Noll L. Campbell, PharmD

This program is intended for health professionals who want to understand the evidence behind the National Institute on Aging (NIA)-Alzheimer's Association's (AA) recommendation to use biomarkers in strengthening the diagnosis of early stages of Alzheimer's disease (AD) including the diagnosis of Mild Cognitive Impairment (MCI) due to AD. Learning Objectives: (1) describe the current understanding of AD pathogenesis and the evidence behind the use of biomarkers to diagnose early stages of AD; (2) review how to counsel people prior to ordering biomarker tests with attention to asking discerning questions that assess personal beliefs, values and attitudes about finding out AD biomarker results so that people understand the impact of disclosing AD biomarkers in various stages of AD; and (3) discuss the economic impact of the adding biomarkers to diagnosis of AD as well as diagnosing the disease in early stages.

Using Biomarkers of Alzheimer's Disease in Clinical Practice

Esther S. Oh, MD, PhD

Impact of Disclosing AD Biomarkers to Patients and Caregivers

7:30 – 9:00 AM

INFECTIONS, ANTIBIOTIC THERAPY, QUALITY AND COST AS DETERMINANTS OF SITE OF SERVICE IN PA-LTC

Room: 301

CME/CE, CMD Management Credit: 1.5

Track: Clinical Practice

*Sponsored by AMDA, the Society for Post- Acute and Long Term Care Medicine & the Post-Acute and Long Term Care Special Interest Group***Moderator:** Verna R. Sellers, MD, MPH, AGSF

This session will review the importance of antibiotic stewardship as part of Quality Assurance Process Improvement Program in Post- Acute and Long Term Care. Learning Objectives: (1) describe the types of infections managed across the spectrum of PA-LTC: LTACH, ARF, SNF, PACE and home health; (2) identify the key components of antibiotic stewardship program across the spectrum of post-acute care; (3) review the impact of infections on Skilled Nursing Facility Readmission Measures; (4) discuss treatment options for infections in PA-LTC and choose appropriate antibiotic therapy when indicated for PA-LTC patients with infections; and (5) focus on strategies to decrease infection related hospital re-admission.

Infections across the Spectrum of Post-Acute and LTC

Christopher J. Crnich, MD, PhD

7:30 – 9:00 AM

LIGHTENING SCIENCE: BRIEF PRESENTATIONS OF TOP-RATED ABSTRACTS

Room: 302

CME/CE, CMD Clinical Credit: 1.5

Track: Research

*Sponsored by the Research Committee***Co-Moderators:** Heather E. Whitson, MD, MHS; Camille P. Vaughan, MD, MS; Peter Abadir, MD

This fast-paced, interactive session will showcase some of the Meeting's best new research and innovation. Several highly rated abstracts were selected for inclusion. Presenters will present the highlights of their projects in 4 or fewer slides and the audience will have an opportunity to discuss and ask questions. Learning Objectives: (1) describe at least 1 emerging concept or new scientific focus in aging research; (2) summarize the key findings of at least 3 projects with relevance to care of older adults; and (3) identify at least 3 AGS-affiliated individuals conducting exciting research in aging.

7:30 – 9:00 AM

EPIDEMIOLOGY PAPER SESSION

Room: 225 B/C

CME/CE, CMD Clinical Credit: 1.5

Track: Research

Sponsored by the Research Committee

Moderator: Shelly L. Gray, PharmD, MS, AGSF

This session presents the latest peer-reviewed geriatrics research with questions and answers to follow. Learning Objectives: (1) discuss new and original research in geriatrics; (2) describe an emerging concept or new scientific focus in aging research; and (3) summarize the key findings of projects with relevance to care of older adults.

WORKSHOPS

7:30 – 9:00 AM

MODEL GERIATRIC PROGRAMS: GERIATRIC EDUCATION MATERIALS AND METHODS SWAP II: NOVEL EDUCATIONAL PROGRAMS

Room: 225 D

CME/CE, CMD Clinical Credit: 1.5

Track: Education

Sponsored by the Teachers Section and the Education Committee

Moderator: Brooke Salzman, MD

This workshop presents a forum for teachers of geriatric education to share topics and materials of common interest, such as program development, curriculum, educational process and research in teaching and evaluation. Learning Objective: (1) describe and exchange geriatric education and teaching materials.

Novelty Interprofessional Geriatric Skills Bootcamp: “Booster Session” and “Flipped Classroom”

7:30 – 9:00 AM

CLINICAL SKILLS WORKSHOP IV: NEW BILLING CODES: OPPORTUNITIES TO IMPROVE CARE COORDINATION AND REVENUES THROUGH ACP, CCM, CPO AND HOME CARE CERTIFICATION

Room: 225 A

CME/CE, CMD Management Credit: 1.5

Track: Clinical Practice

Sponsored by the Clinical Practice and Models of Care Committee

Moderator: Audrey K. Chun, MD

This interactive workshop session is designed to introduce practicing clinicians to the “cognitive codes” which include advance care planning, chronic care management, transitional care management, and care plan oversight. Learning Objectives: (1) identify the cognitive codes available for billing for services provided in addition to traditional E/M coding; (2) describe the basic requirements for billing and documentation of Advance Care Planning, Care Plan Oversight, Chronic Care Management, and Transitional Care Management and home care certification/recertification; and (3) map a workflow for implementing at least one cognitive code into their clinical practice.

Cognitive Codes-What You Need to Know to Implement These into your Clinical Practice

SECTIONS

7:30 – 9:00 AM

JUNIOR FACULTY RESEARCH CAREER DEVELOPMENT BREAKFAST

Room: 305

Chair: Michael LaMantia, MD, MPH

This session will provide the opportunity for junior faculty, fellows, and students to informally meet over breakfast with senior faculty and leaders in aging to discuss research interests, academic career development, career choices, job opportunities, and/or other topics pertinent to junior faculty development.

7:30 – 9:00 AM

MEDICAL SUBSPECIALTIES SECTION MEETING

Room: Grand Hyatt Hotel—Bowie Room

CME/CE, CMD Management Credit: 1.5

Track: Clinical Practice

Co-Chairs: Kevin P. High, MD, MS; Lona Mody, MD, MSc; Arti Hurria, MD

Developed by the Association of Specialty Professors project

“Integrating Geriatrics into the Specialties of Internal Medicine: Moving Forward from Awareness to Action,” which is funded by The John A. Hartford Foundation and Atlantic Philanthropies, Inc.

Members of the AGS Medical Subspecialties Section will provide updates on activities within their disciplines, thereby showcasing opportunities for scholars to advance the geriatrics agenda within their specialty societies and their institutions. In addition we will discuss career development topics relevant to junior faculty pursuing aging research.

7:30 – 9:00 AM

RESIDENTS SECTION BREAKFAST & FELLOWSHIP FAIR

Room: 303

Track: Networking

Chair: Christian Bergman, MD

All Residents and 4th year Medical Students are encouraged to attend this section meeting. Come and meet others and discuss your own ideas about the field and ways to get more involved in AGS. Geriatricians will be present to discuss geriatrics as a career and opportunities in the field. Fellowship Directors will be representing their programs at the fellowship fair portion of the section meeting. Breakfast will be served.

9:15 –10:00 AM

AGS AWARDS CEREMONY

Room: Stars at Night 1/2

Please join us as we honor and celebrate this year’s prestigious award winners. The following awards will be presented:

Edward J. Henderson Student Award
Thom Ringer, JD, MPhil, MD Candidate

Clinical Student Research Award
Laura E. Hatchman, BA, MD Candidate
Jessica Rizzuto, BA, MPP

Scientist-in-Training Research Award
Andrea E. Daddato, MS

New Investigator Awards
Andrew Cohen, PhD, MD
Lorena Gonzalez, MD
Benjamin Han, MD, MPH
Supakanya Wongrakpanich, MD

Outstanding Junior Investigator of the Year Award
Dae Kim, MD, MPH, MSc

Outstanding Junior Research Manuscript Award
Halima Amjad, MD, MPH

Outstanding Junior Clinician Educator of the Year Award
Kristen L. Thornton, MD

Outstanding Mid-Career Clinician Educator of the Year Award

Lisa M. Walke, MD

AGS Choosing Wisely Champion

Eric Anthony Lee, MD

Presidential Poster Awardees

Jeffrey H. Silverstein Memorial Award for Emerging Investigators in the Surgical and Related Medical Specialties that are Focused on the Care of Older Adults

Anne M. Suskind MD, MS

Clinician of the Year Award

Fatima Sheikh, MD, CMD, MPH

Dennis W. Jahnigen Memorial Award

Maura J. Brennan, MD

10:00 – 10:45 AM

THOMAS AND CATHERINE YOSHIKAWA OUTSTANDING SCIENTIFIC ACHIEVEMENT FOR CLINICAL INVESTIGATION AWARD LECTURE: INDIVIDUALIZING PREVENTION IN OLDER ADULTS

Room: Stars at Night 1/2

CME/CE, CMD Clinical Credit, Pharmacy Credit: .75

Track: Research

Speaker: Sei J. Lee, MD, MAS

Learning Objectives: (1) identify common geriatric interventions which are preventive in nature rather than treatments; and (2) use life expectancy prediction and time to benefit to prioritize interventions in older adults.

10:45 AM – 12:00 PM

NAVIGATING THROUGH UNCERTAIN TIMES IN PUBLIC POLICY

Room: Stars at Night 1/2

CME/CE, CMD Management Credit: 1.25

Track: Public Policy

Developed by the Public Policy Committee

Speakers: Peter A. Hollmann, MD; Michael L. Malone, MD; Paul M. Rudolf, MD, JD; Kathleen T. Unroe, MD, MHA

Learning Objectives: (1) describe important policy updates regarding Medicaid programs and the potential implications for older Americans; (2) describe public policy updates to Medicare programs and implications for older Americans; and (3) describe the framework for AGS' approach to public policy issues in 2017 and beyond.

12:00 PM

LUNCH BREAK

Room: Exhibit Hall 1

Complimentary lunch available in the exhibit hall.

12:00 – 4:30 PM

EXHIBIT HALL OPEN AND POSTERS AVAILABLE FOR VIEWING

Room: Exhibit Hall 1

12:00 – 1:00 PM

POSTER SESSION C

Room: Exhibit Hall 1

View the most current research in geriatrics. Authors will be available to discuss the presented findings and answer questions.

12:00 – 3:00 PM

STUDENT SPECIAL INTEREST GROUP

Room: 303

Track: Networking

Join the Student Community for networking and learning about the latest student news. In addition to updates from the Student Leadership Committee, this session will include a panel of speakers from various career paths as well as a closing lecture on interdisciplinary care. Open to all trainees interested in attending.

SYMPOSIA

1:00 – 2:30 PM

DRUG THERAPY CONTROVERSIES: CLINICAL PEARLS FOR YOUR PRACTICE

Room: Stars at Night 1/2

CME/CE, CMD Clinical Credit, Pharmacy Credit: 1.5

Track: Clinical Practice

Sponsored by the Pharmacists Section and the Polypharmacy Special Interest Group

Moderator: Sunny A. Linnebur, PharmD, BCPS, CGP

The program will consist of 3 clinical pearls regarding controversial topics related to managing medications in older adults. Learning Objectives: (1) interpret literature surrounding drug-related controversies for older adults; (2) implement strategies to manage certain drug-related controversies in older adults; (3) communicate and discuss pros/cons of different management options for drug-related controversies; and (4) involve patients and/or caregivers in shared decision making to support the treatment plan.

Which Antipsychotic is Best/Least Harmful in an Older Adult with Delirium?

J. Ronald Davis, Jr., PharmD, BCPS

Crystal D. Burkhardt, PharmD, MBA, BCPS

Pharmacogenomic Testing in Clinical Practice: Which Patients Fit the Profile and Who Foots

the Bill?

Christina L. Aquilante, PharmD, FCCP

1:00 – 2:30 PM

THAT WAS THE YEAR THAT WILL BE: BENCH RESEARCH FINDINGS OF 2016 THAT WILL BE AT THE BEDSIDE BY 2021

Room: 221

CME/CE, CMD Clinical Credit: 1.5

Track: Research/Clinical Practice

Sponsored by the Geroscience Special Interest Group and the Research Committee

Moderator: George E. Taffet, MD

This symposium will focus on basic science and translational studies in the past year that will impact clinical care in the next five years (neurovascular, musculo-skeletal, vascular, and cellular senescence). Learning Objectives: (1) discuss the application of today's bench research to tomorrow's bedside care focusing on the neurovascular system; the vascular system; the senescence of physiologic systems; and muscle.

Novel Highways In and Out of the Aging Brain

1:00 – 2:30 PM

FROM PHYSICAL EXAMINATION TO CROSS EXAMINATION: AN INTERPROFESSIONAL APPROACH TO DECISIONALLY IMPAIRED OLDER ADULTS

Room: 301

CME/CE, CMD Management Credit: 1.5

Track: Ethics

Sponsored by the Clinical Practice and Models of Care; Education; Ethics; and Public Policy Committees and the Teachers Section

Moderator: Kevin T. Foley, MD, FACP, AGSF

This symposium will be of interest to providers who care for older adults with impaired decisional capacity. Learning Objectives: (1) determine when vulnerable older adults would benefit from a decisional capacity evaluation to balance their rights to self-determination and protection under the law; (2) apply effective documentation strategies to create appropriate and unambiguous capacity evaluations; (3) identify means to assist the court and other administrative agencies in matters requiring a health professional's advocacy

and/or expertise regarding decisionally impaired older adults; and (4) demonstrate procedural skills and behaviors expected of fact and expert.

1:00 – 2:30 PM

DETAILING DEMENTIA: NEUROLOGIC & BEHAVIORAL SCIENCE PAPER SESSION

Room: 225 B/C

CME/CE, CMD Clinical Credit: 1.5

Track: Research

Developed by the Research Committee

Moderator: Christine Kistler, MD

This session presents the latest peer-reviewed geriatrics research with questions and answers to follow. Learning Objectives: (1) discuss new and original geriatrics research; (2) describe an emerging concept or new scientific focus in aging research; and (3) summarize the key findings of projects with relevance to care of older adults.

OP ON POP? PERIOPERATIVE CARE OF THE OLDER ADULT PATIENT

Room: 304

CME/CE, CMD Clinical Credit: 1.5

Track: Clinical Practice

Sponsored by the SGIM Special Interest Group

Moderator: Hollis D. Day, MD, MS

This session identifies perioperative risks (e.g. delirium) and controversies (e.g. should a patient even go to surgery, when/how to hold anticoagulants, application of cardiac guidelines) specific to older adults and methods for mitigating these risks. Learning Objectives: (1) identify when it is/is not appropriate to bridge anticoagulants in the perioperative setting; (2) identify risk factors for postoperative delirium and diagnose/treat delirium when it arises; (3) identify the appropriate choice of risk calculator to appropriately estimate a patient's risk of perioperative morbidity/mortality; and (4) practice using a decision framework for communicating risk to patients/surgical colleagues about whether a patient should go to surgery based on comorbidities and goals of care.

1:00 – 2:30 PM

WRITING AND REVIEWING FOR THE JOURNAL OF THE AMERICAN GERIATRICS SOCIETY (JAGS): DIAMONDS IN THE ROUGH

Room: 302

CME/CE, CMD Management Credit: 1.5

Track: Research

Faculty: Ellen F. Binder, MD; George A. Kuchel, MD, FRCP, AGSF; Miriam B. Rodin, MD, PhD, CMD; William B. Applegate, MD; Mary E. Butler, PhD, MBA

Supported by an educational grant from Wiley-Blackwell Publishing

This workshop is intended for persons who want to submit to, and/or review research articles for the Journal of the American Geriatrics Society (JAGS). Participants will work in small groups, with facilitation by JAGS editorial board members, to review an article on site, using the JAGS review checklist, discuss the findings, and present their conclusions. Prior to the workshop, participants will be expected to have reviewed an on-line webinar that describes how a review for JAGS should be conducted and offers a working example of such a review. Learning Objectives: (1) use the JAGS checklist to review an article; (2) decide what recommendation to give about acceptance; and (3) review what steps are needed for improving the paper.

1:00 – 2:30 PM

CLINICAL SKILLS WORKSHOP V: JOINT INJECTIONS

Room: 225 A

CME/CE, CMD Clinical Credit: 1.5

Track: Clinical Practice

Speakers: Shobhana A. Chaudhari, MD, FACP, AGSF; Ashok P. Chaudhari, MD; Estrella Roffe, MD, AGSF; Julio A. Martinez-Silvestrini, MD

After a brief demonstration of joint injection techniques by faculty, participants will practice the injections on joint models with faculty support. Learning Objectives: (1) demonstrate ability to inject the knee; (2) demonstrate ability to inject the shoulder; and (3) demonstrate ability to inject Trochanteric Bursa.

SYMPOSIA

2:45 – 4:15 PM

MANAGEMENT OF DEPRESSION AND ANXIETY, INCLUDING THE APPLICATION OF COGNITIVE BEHAVIORAL THERAPY

Room: Stars at Night 1/2

CME/CE, CMD Clinical Credit, Pharmacy Credit: 1.5

Track: Clinical Practice

Moderator: Laura Marsh, MD

Depression and anxiety in a geriatric population presents a unique set of challenges to the treating clinician. This session will explore the unique challenges that may complicate the diagnosis and treatment of depression and anxiety in older patients. Learning Objectives: (1) assess geriatric depression and utilize effective treatment options; (2) assess geriatric anxiety and utilize effective treatment options; and (3) discuss use of psychotherapy for the treatment of depression and anxiety in older adults.

Management of Anxiety in Older Adults

2:45 – 4:15 PM

ASSESSING THE EFFECTIVENESS OF INTERVENTIONS TO PREVENT OR SLOW COGNITIVE DECLINE

Room: 221

CME/CE, CMD Clinical Credit: 1.5

Moderator: Mary E. Butler, PhD, MBA

This session will provide a summary of the evidence about interventions to delay the onset of cognitive decline. Learning Objectives: (1) describe the state of research on interventions to delay the onset of cognitive decline and the NIA's plan to address research gaps; (2) describe the strength of evidence to support claims about the effectiveness of cognitive training interventions to delay the onset of cognitive decline; (3) describe the strength of evidence to support claims about the effectiveness of physical exercise interventions to delay the onset of cognitive decline; and (4) describe the strength of evidence to support claims about the effectiveness of various medical interventions (including NSAIDs, hormone replacement therapy, nutraceuticals, vitamins, statins, cardiovascular disease treatments, and diabetes treatments) to delay the onset of cognitive decline.

2:45 – 4:15 PM

HOSPITAL AT HOME 2.0: A PLATFORM FOR MOVING MULTIPLE TYPES OF FACILITY-BASED CARE INTO THE HOME

Room: 302

CME/CE, CMD Management Credit: 1.5

Track: Models of Care

Moderator: Bruce A. Leff, MD

This session will examine implementation of Hospital at Home Version (HaH) 2.0, the Platform Model, through the lens of a Centers for Medicare and Medicaid Innovation Center Demonstration Project. Learning Objectives: (1) describe the HaH 2.0 Platform Model and the advantages it has in the context of the current evolution of health service delivery in the value-based care environment; (2) describe the outcomes of the HaH

2.0 Platform Model and how the population treated and outcomes vary by the particular suite of services provided in the platform; (3) describe the challenges of developing payment models for novel models of community-based care and describe to financial officials at their institutions appropriate approaches to HaH 2.0 payment that fit their institutional needs; and (4) describe the policy, staffing, and patient recruitment challenges to implementation of HaH 2.0 and strategies and tactics to overcome such barriers.

MANAGING YOUR CLINICAL PRACTICE—LEADERSHIP AND NURTURING

Room: 301

CME/CE, CMD Management Credit: 1.5

Track: Models of Care

Moderator: Kyle R. Allen, DO

Leading a group of clinicians requires specific skills. Understanding one's own personality and psychological make-up is an important aspect of leadership; so, too, is our understanding of the same in the people we lead. Learning Objectives: (1) describe tools that can help teams to understand communications styles and how to leverage them; (2) tie high quality geriatric care to cost-effective approaches to care that can ultimately deliver financial reward to clinicians; and (3) discuss peer-to-peer management and employee management for clinicians who are leading a practice, regardless of the practice environment (e.g., academic vs. private vs. free-standing clinic).

NEW FRONTIERS IN GERIATRICS: THE JAHNIGEN AND WILLIAMS AWARDEES REPORT ON RESEARCH LEADING TO IMPROVED CARE BY SURGICAL AND MEDICAL SUBSPECIALISTS

Room: 304

CME/CE, CMD Clinical Credit: 1.5

Track: Research

Co-Moderators: William R. Hazzard, MD & Ula Hwang, MD, MPH

This symposium will highlight the research supported by the Dennis W. Jahnigen and T. Franklin Williams Career Development Awards Programs. Both programs support research on older patients who are cared for by the targeted disciplines, with the Jahnigen Awards program supporting faculty in the surgical and related medical specialties and the Williams Award program supporting faculty in the sub-specialties of internal medicine. Learning Objectives: (1) describe current research which will lead to improved care of older persons by surgical and medical subspecialists.

Room: 225 B/C

CME/CE, CMD Clinical Credit: 1.5

Track: Research

Sponsored by the Research Committee

Co-Moderators: Cathleen S. Colon-Emeric, MD, MHS & Camille P. Vaughan, MD, MS

This session presents the latest peer-reviewed geriatrics research with questions and answers to follow. Learning Objectives: (1) discuss new and original geriatrics research; (2) describe an emerging concept or new scientific focus in aging research; and (3) summarize the key findings of projects with relevance to care of older adults.

2:45 – 4:15 PM

CONSTRUCTING WRITTEN TEST QUESTIONS WORKSHOP

Room: 305

CME/CE, CMD Management Credit: 1.5

Track: Professional Development

Developed in collaboration with the National Board of Medical Examiners

Presenter: Miguel A. Paniagua, MD

This item-writing workshop is designed to help attendees improve the quality of multiple-choice questions written for their examinations. Through informative presentations and discussions, we will explore structural issues relating to constructing quality multiple-choice items for testing of basic science and/or clinical science content. Learning Objectives: (1) write, review, and refine test items with a focus on one best answer formats; (2) describe how to write questions that focus on application of knowledge versus recall of isolated facts; and (3) write questions that integrate key board-relevant geriatric principles into effective multiple choice items.

2:45 – 4:15 PM

CLINICAL SKILLS WORKSHOP VI: WORKSHOP FOR AGING AND ORAL HEALTH

Room: 225 A

CME/CE, CMD Clinical Credit: 1.5

Track: Clinical Practice

Sponsored by the Aging and Oral Health Special Interest Group

Moderator: Sue Spackman, DDS

Learning Objectives: (1) provide a quick screening of the oral cavity for cooperative patients and include the dental portion of the patient-centered medical home for interprofessional referral and how this contributes to improved overall health; (2) quickly screen the older adult for lack of daily oral care and then include the dental portion of the patient-centered medical home for interprofessional referral; (3) provide a quick screening of the oral cavity for un-cooperative patients and include the dental portion of the patient-centered medical home for interprofessional referral and how this action impacts general health; and (4) provide a quick screening for dysphagia and to refer at an early stage to prevent pneumonia or choking because this impacts general health.

SECTION MEETING

2:45 – 4:15 PM

TEACHERS NETWORKING SECTION

Room: 225 D

Track: Networking

Chair: Anna Chang, MD

Come and join your fellow geriatrics clinician educators to discuss potential collaborative projects as well as proposals for next year's annual meeting.

3:30 - 4:30 PM

POSTER SESSION D—STUDENTS & RESIDENTS

Room: Exhibit Hall 1

Sponsored by the AGS Health in Aging Foundation

View the most current research in geriatrics. Authors will be available to discuss the presented findings and answer questions. Resident posters will be judged, with participation certificates and awards in several categories to be presented at the end of the Poster Session.

PLENARY SYMPOSIUM

4:30 – 5:30 PM

HENDERSON-STATE-OF-THE-ART LECTURE: BUILDING, SUSTAINING AND PROMOTING AGE-FRIENDLY HEALTH SYSTEMS

Track: Clinical Practice

Speaker: Richard M. Allman, MD

Learning Objectives: (1) define an age-friendly health system; (2) describe factors that contribute to building, sustaining, or promoting age-friendly health systems; (3) discuss barriers to implementing such systems; (4) describe the role of education, research, and quality improvement in such a system; and (5) elucidate outcomes one can expect for older adults in these systems.

6:00 – 7:00 PM

WRITING QUESTIONS FOR THE GERIATRICS REVIEW SYLLABUS

Room: 305

CME/CE, CMD Management Credit: 1

Track: Professional Development

Developed in collaboration with the National Board of Medical Examiners

Presenter: Miguel Paniagua, MD

Attendance at this session is limited to authors and editors of the Geriatrics Review Syllabus.

This workshop is specifically designed for GRS10 question editors and writers. Principles of writing good questions will be reviewed, and there will also be focus on developing the supportive critiques to maximize the educational value for each question. Learning Objectives: (1) address the importance of formulating teaching points and learning objectives as a start point in developing questions; (2) review the GRS question structure and components; and describe the strength-of-evidence (SOE) classification ratings used in the GRS.

6:00 – 7:30 PM

FUN STATIONS: TEST YOUR SKILLS AND WIN PRIZES!

Room: 303

Track: Networking

Trainees will be testing their knowledge via interactive quiz stations supervised by Geriatric Faculty from various Universities/Medical Centers. Students, Residents and Fellows will have the opportunity to network and interact with leaders in Geriatric Education. Questions will address important geriatric topics, such as aging physiology and its effects on disease, dermatological conditions, functional impairment and use of assistive devices. Come learn, have fun, and win prizes in a relaxed setting!

SPECIAL INTEREST GROUPS**7:00 – 8:30 PM****CARE TRANSITIONS****Room:** 301**Track:** Networking**Chairs:** Timothy W. Farrell, MD, AGSF & Franklin Watkins, MD

The mission of the Care Transitions SIG is to improve outcomes for vulnerable elders moving across different healthcare settings through the better execution of care transitions. The SIG will assemble geriatricians and other geriatrics professionals with a common interest in improving care transitions through education, quality improvement, and research. The group will strive to serve as a resource to develop educational sessions at AGS annual meetings, and serve as AGS' main forum for discussion, collaboration, and advocacy on care transitions issues.

7:00 – 8:30 PM**CLINICAL RESEARCH IN DEMENTIA****Room:** 302**Track:** Networking**Chair:** Noll L. Campbell, PharmD

The Clinical Research in Dementia Special Interest Group is committed to networking among AGS members who are dedicated to clinical research in older adults suffering from dementia. Members will use this forum to disseminate knowledge and share methods from recent and ongoing projects, as well as to identify collaborative opportunities to advance clinical research in dementia.

7:00 – 8:30 PM**ELDER ABUSE AND NEGLECT****Room:** 6 C/D**Track:** Networking**Chair:** Ronan Factora, MD

Elder abuse and neglect is common yet under-recognized and underreported. This group of professionals seeks to improve the lives of victims of elder mistreatment and neglect by sharing experiences and ideas as well as through coordinating/collaborating on projects addressing this problem. Members include national leaders in the field working on research and advocacy, as well as clinicians and educators propagating the importance of this topic to healthcare learners. The Elder Abuse SIG fosters collaboration and networking to develop such initiatives amongst its members to forward its mission throughout the year.

7:00 – 8:30 PM**GERIATRICS CONSULTATIVE SERVICES****Room:** 304**Track:** Networking**Chair:** Ella H. Bowman, MD, PhD, AGSF, FAAHPM

This meeting is open to anyone who provides or is interested in providing geriatric medicine consultative services across all care settings. Participants will have an opportunity to learn from other practitioners how geriatrics consultative services are provided in various clinical settings. Discussion topics will include the extent to which our services are in demand; the types of patients whom we are asked to see; various collaborative efforts with other services; billing processes and concerns; incorporating geriatrics teaching within the consultative setting; and types of problems we encounter. All participants have the opportunity to join a listserv uniting members throughout the year wishing to stay connected for further collaboration, dissemination of knowledge, and to request assistance from like-minded colleagues when facing difficult challenges. This year's meeting, as in past, will offer time to learn from expert geriatrics consultants along with valuable time to collaborate with fellow attendees.

7:00 – 8:30 PM**GERIATRIC-SURGICAL CO-MANAGEMENT PROGRAMS****Room:** 221**Track:** Networking**Chair:** Lynn McNicoll, MD, AGSF, FRCPC

The Geriatric-Surgical Co-Management SIG brings together clinicians and researchers interested in the clinical and academic perspective of surgical co-management. It is an opportunity to share ideas, promote our work, network and collaborate. It is open to anyone from those interested in starting a co-management program to those already expert in the area. We welcome all providers and researchers including geriatricians, hospitalists, mid-level providers, nurses, anesthesiologists, or surgeons. Our SIG has continued to grow and provide a safe environment for providers to discuss the complexities and intricacies of co-management from creating a business case to promoting team-based care.

7:00 – 8:30 PM**HEALTHY AGING****Room:** 7 D**Track:** Networking**Co-Chairs:** Paul L. Mulhausen, MD, MHS, FACP, AGSF & Kathryn Daniel, GNP

The mission of this group will be to promote healthy aging initiatives at AGS; develop presentations, sym-

posia, and educational materials for AGS members; encourage research in healthy aging; act as liaisons with other organizations promoting healthy aging; and identify and promote ways that AGS members can promote healthy aging among their patients and among populations of people.

7:00 – 8:30 PM

MAKE IT SAFE TO GROW OLD! ACCOUNTABLE CARE COMMUNITIES FOR FRAIL ELDERLY

Room: 305

Track: Networking

Chair: Joanne Lynn, MD

This SIG will share information on the proposals, models of care, community integration collaboration networks, and politics that center on building reforms across all service providers including community agencies, long-term services and supports which need to be monitored and managed on behalf of the whole population of frail elders, not just those enrolled in a particular program or those using a particular hospital.

7:00 – 8:30 PM

POLYPHARMACY

Room: 225 D

Track: Networking

Chair: Sean M. Jeffery, PharmD, AGSF

The Polypharmacy SIG's networking meeting is intended for all healthcare providers who struggle with reducing polypharmacy and preventing inappropriate prescribing in older adults. The Polypharmacy SIG is an interprofessional group (administrators, nurses, pharmacists, & physicians) dedicated to identifying research, policy and practice models that reduce polymedicine and inappropriate medication use in older adults. The SIG gathers annually to share recent advances and novel strategies for reducing polypharmacy. This networking event is informal, interactive, and informative. Poly-

pharmacy SIG membership is not a requirement to participate.

7:00 – 8:30 PM

POST-ACUTE AND LONG-TERM CARE

Room: 225 B/C

Track: Networking

Chair: Verna R. Sellers, MD, MPH, AGSF

This SIG focuses on issues related to the management of older adults with multiple acute and chronic conditions in PA-LTC facilities. The Protecting Access to Medicare Act 2014 includes a provision for hospital readmission penalties for skilled nursing facilities (SNF) starting in 2018. As the payment for SNF shifts from "fee for service" to "value based" there will be an increased emphasis on quality measures and reducing avoidable re-admission. Come prepared to share best practices and learn from your peers.

7:00 – 8:30 PM

PROGRAM OF ALL INCLUSIVE CARE FOR THE ELDERLY (PACE)

Room: 225 A

Track: Networking

Co-Chairs: Gwendolyn Graddy-Dansby, MD & Susan Hardy, MD

PACE (Program for All-Inclusive Care of the Elderly) is a comprehensive, fully integrated model which provides community-based care for nursing home eligible frail elders. This session will provide information to people who are interested in working with or establishing a PACE organization. In addition people who are currently working with PACE organizations are encouraged to attend to share PACE stories and best practices for management of older adults with chronic diseases. We encourage anyone with questions to come and explore why this model has become so successful.
