SATURDAY, MAY 9

7:00 AM – 8:30 AM
MEDICAL SPECIALTIES SECTION MEETING
Room:
Track: Networking
Co-Chairs: Lauren Ferrante, MD, MHS & Una Makris, MD, MSc
Speakers: Ula Hwang, MD, MPH; Eleni Linos, MD, MPH, DrPH; Heidi Klepin, MD; Tom Robinson, MD; Thomas Gill, MD; Sue Zieman, MD, PhD

The Medical Specialties Section was developed in 2002 by the Association of Specialty Professors project “Integrating Geriatrics into the Specialties of Internal Medicine: Moving Forward from Awareness to Action,” funded by The John A. Hartford Foundation and Atlantic Philanthropies, Inc.

Medical and surgical subspecialists will provide updates on activities within their disciplines, thereby showcasing opportunities for specialists to advance a geriatrics agenda within their specialty societies and their institutions. In addition, we will discuss career development topics relevant to junior faculty pursuing aging research. This year’s session will feature a panel of medical and surgical subspecialty leaders discussing resilience/grit when pursuing an aging-focused agenda in one’s specialty. All medical and surgical subspecialists are encouraged to attend. Breakfast will be served.

CONCURRENT SESSIONS

7:30 AM – 8:30 AM
UTI IN THE MICROBIOME ERA
Room:
CME/CE Credit: 1.0
Track: Clinical Practice
Moderator: Kathleen Drago, MD

This symposium will highlight the latest clinical research in "UTI" / asymptomatic bacteriuria diagnosis & treatment, how it is reflected in the latest clinical guidelines and establish a call to action in adopting this information into clinical practice. Learning Objectives: (1) incorporate the latest clinical research and professional society guidelines on "UTI" and asymptomatic bacteriuria into their existing "when to test, when to treat" framework; (2) describe the female urinary microbiome and its relationship to "UTI" and asymptomatic bacteriuria in older women; and (3) incorporate knowledge of the urinary microbiome to improve usual care for "UTI" and asymptomatic bacteriuria.

What’s New with Asymptomatic Bacteriuria: IDSA Guidelines and Clinical Recommendations
Manisha Juthani, MD

Treating Acute Cystitis: How Necessary is That?
Thomas E. Finucane, MD

Urine is Not Sterile: What’s Next?
Alan J. Wolfe, PhD

7:30 AM – 8:30 AM
USE OF NEUROIMAGING IN COGNITIVE IMPAIRMENT AND MILD COGNITIVE IMPAIRMENT
Room:
CME/CE Credit: 1.0
Track: Clinical Practice
Sponsored by the American Academy of Neurology
Speakers: Alexander P. Auchus, MD & Juebin Huang, MD, PhD
This case-based symposium will illustrate the utility of neuroimaging in the evaluation of patients with cognitive impairment and mild cognitive impairment. Learning Objectives: (1) describe neuroimaging tests available to the geriatrics healthcare provider; (2) discuss the application of these tests in evaluating patients; (3) review when each test might be helpful; and (4) appreciate the interpretations of neuroimaging results.

7:30 AM – 8:30 AM
USING PATIENT-CENTERED OUTCOMES TO MEASURE AND IMPROVE THE QUALITY OF CARE FOR OLDER ADULTS WITH MULTIPLE CHRONIC CONDITIONS
Room: CME/CE Credit: 1.0 Track: Professional Development
Sponsored by the Quality and Performance Measurement Committee, Research Committee, Clinical Practice and Models of Care Committee, and the Junior Faculty Research Special Interest Group
Moderator: Sei J. Lee, MD, MAS
In this session, we will highlight 3 examples of how patient-centered metrics can be used to measure and improve healthcare quality for older adults with multiple chronic conditions. Learning Objectives: (1) recognize the potential benefits and challenges of using “off the shelf” patient-reported outcomes (e.g. PROMIS measures) versus eliciting personalized health goals; (2) describe the similarities and differences in determining patient-defined outcomes in cognitively intact and cognitively impaired older adults; and (3) compare and contrast 3 different frameworks for eliciting patient-defined outcomes and determining whether these outcomes were achieved.

The Promise of PROMIS, Past, Present, Future
Michael H. Perskin, MD

Patient Priorities Care: Linking Quality Metrics with Patient Goals and Preferences
Claire Davenport, MD, MS

Personalized Goal Setting in Dementia Care: Measuring what Matters Most
Lee A. Jennings, MD, MSHS

7:30 AM – 8:30 AM
STAYING IN THE GREEN—OPTIMIZING YOUR EFFECTIVENESS BY REGULATING YOUR REACTIVITY
Room: CME/CE Credit: 1.0 Track: Education
Sponsored by the Teachers Section and the Education Committee
Speaker: Christine S. Ritchie, MD, MSPH
Working effectively in teams is critical for leaders in geriatric care. This workshop will offer participants the opportunity to gain insights on their and their colleagues’ reactivity and defensiveness. It will offer guidance and tips on how to modulate one’s own reactivity and navigate the reactivity and defensiveness of others. Learning Objectives: (1) describe behavioral indicators of reactivity in ourselves in others; (2) identify strategies to modulate our own reactivity; and (3) review approaches to foster an environment that mitigates against reactivity and supports positive and effective interactions in team settings.

7:30 AM – 8:30 AM
CODING AND REIMBURSEMENT: STUMP THE PROFESSOR
Room: C123
CME/CE Credit: 1.0 Track: Clinical Practice
Speaker: Peter A. Hollmann, MD
This open workshop will focus on answering your questions about CPT coding and billing, Medicare incentive and penalty programs (e.g. MIPS), reimbursement rules and related practice management
issues. Attendees bring their questions for discussion. Learning Objectives: (1) discuss CPT/HCPCS coding and billing; and (2) describe how Medicare policy can affect your practice.

7:30 AM – 8:30 AM
TELEHEALTH PAPER SESSION
Room:
CME/CE Credit: 1.0 Track: Research
Sponsored by the Research Committee
Moderator: Susan M. Friedman, MD, MPH
This session will present the latest peer-reviewed geriatrics research with questions and answers to follow. Learning Objectives: (1) discuss new and original geriatrics research; (2) describe an emerging concept or new scientific focus in aging research; and (3) summarize the key findings of projects with relevance to care of older adults.

P32 – Utilizing Telehealth to Address Changes in Condition in a Home-based Primary Care Practice
Jill C. Slaboda, PhD

P33 – Using Telehealth to Improving Delirium Assessment by Critical Care Nurses
Liron Sinvani, MD

P34 – Improving Palliative Care Access Through Technology (ImPACCT) in Nursing Homes: Preliminary Pilot Study Findings
Caroline E. Stephens, PhD, RN, GNP, FAAN

P35 – Uncovering Errors in Transitions from Hospital to Nursing Home: A Video Telehealth Transitions Conference
Elspeth A. Clark, DO

PLENARY SESSION

8:45 AM – 10:15 AM
GERIATRICS LITERATURE UPDATE: 2020
Room: Hall B
CME/CE Credit: 1.5 Track: Clinical Practice
Speakers: Kenneth Covinsky, MD, MPH; Eric W. Widera, MD & Alexander K. Smith, MD, MS, MPH
The Geriatric Literature Update is always one of the most popular sessions at the annual meeting. The session will focus on the year’s most important published papers. Discussion includes the significance of findings and application to patient care. Learning Objectives: (1) identify areas in clinical medicine where new strong evidence has been uncovered that should affect geriatric practice; (2) describe the results of a critical appraisal of this evidence; and (3) discuss clinical advances in caring for older adults from a review of approximately 30 peer-reviewed journals January-December, 2019.

CONCURRENT SESSIONS

10:30 AM – 11:30 AM
IMMUNIZATIONS IN OLDER ADULTS
Room:
CME/CE Credit: 1.0 Track: Clinical Practice
Moderator: Kevin P. High, MD, MS
This session will feature brief TED talks 7-minutes long with no more than 3 slides for each talk. Learning Objectives: (1) discuss the epidemiology of vaccine-preventable illness in older adults; (2) identify the current immunization recommendations for influenza, pneumococcal, herpes zoster, and pertussis vaccination for adults 65 years or older; and (3) evaluate the role of the pharmacist in improving vaccination rates in the older adult population.

Brief Intro: Epidemiology of Vaccine Preventable Illnesses in Older Adults
Kevin P. High, MD, MS

Influenza Vaccines: Current Status and Outlook for the Future
H. Keipp Talbot, MD, MPH

Zoster Vaccines: Why Is the New Subunit Vaccine More Effective?
Kenneth Schmader, MD

Pneumococcal and Pertussis Vaccines: Direct and Indirect Effects
Carlos G. Grijalva, MD, MPH, FIDSA

Pharmacist-Based Strategies to Enhance Immunization in Older Adults
Jennifer L. Bacci, PharmD, MPH, BCACP

Vaccines in Long-term Care
Robin L.P. Jump, MD, PhD

Group Panel Q & A

10:30 AM – 11:30 AM
DISRUPTIVE BEHAVIORS IN DEMENTIA AND DELIRIUM IN DEMENTIA: BEST TREATMENTS AND BEST PRACTICE
Room:
CME/CE Credit: 1.0 Track: Clinical Practice
Moderator: Laurence M. Solberg, MD, AGSF
Sponsored by the Clinical Practice and Models of Care Committee, Geriatrics Consultative Services Special Interest Group, Acute Hospital Care Special Interest Group
Learning Objectives: (1) define dementia related behaviors & differentiate from delirium; (2) describe & implement non-pharmacological interventions for the treatment of delirium & dementia related behaviors; (3) discuss various pharmacological regimens and potential side effects that have been trialed for dementia associated with disruptive behaviors or hypersexual behaviors; (4) recognize the limitations and barriers regarding evaluation and management as well as the ethical and social concerns; (5) discuss and list best practices for caring for hospitalized persons with delirium-superimposed on dementia (DSD) and discuss the barriers and facilitators to management of DSD; (6) recognize that sleep, pain, anxiety and bipolar disorders are common but treatable contributors to agitated delirium in dementia patients; (7) discuss the efficacy and safety profile of antipsychotics in treating agitated delirium; and (8) discuss the evidence for efficacy and toxicity of Cannabinoids, anti-epileptics, and central alpha-2 adrenoreceptor agonists in patients with delirium superimposed on dementia.

Non-Pharmacologic Treatments of Disruptive Behaviors in Dementia
Belinda K. Setters, MD, FACP, AGSF

Pharmacologic Treatments for Disruptive Behaviors Including Hyper-Sexual Behaviors in Dementia
Mariam A. Mufti, MD

Person-Centered Care for Older Adults with Delirium-Superimposed on Dementia: Tips for Best Practice in Recognition, Prevention and Management
10:30 AM – 11:30 AM
MEDICATION MANAGEMENT TO PROMOTE WHAT MATTERS MOST ACROSS THE PROGNOSTIC SPECTRUM: AN INTERPROFESSIONAL CLINICAL SKILLS WORKSHOP USING THE 5MS FRAMEWORK
Room:
CME/CE Credit: 1.0  Track: Education
Moderator: Lisa J. Granville, MD, AGSF
Sponsored by the Pharmacists Section, Polypharmacy Special Interest Group, Nurses Section, Fellows-In-Training Section, Residents Section, Teachers Section, and the Education Committee
Learning Objectives: (1) using the framework of the geriatric 5Ms (medications, mind, mobility, multicomplicity and matters most), implement a strategy to optimize medication management in older patients with different prognoses; and (2) Compare and contrast decision support tools and approaches to optimizing drug regimens for older adults across the spectrum of function and prognosis, including identifying potentially inappropriate medications and deprescribing.

Optimizing Prescribing for the Robust Older Adult
Zaldy S. Tan, MD, MPH, FACP; Sean M. Jeffery, PharmD, CGP, PASCP, AGSF; Margaret I. Wallhagen, PhD, GNP-BC, AGSF, FAAN

Optimizing Prescribing for the Vulnerable Older Adult
Hal H. Atkinson, MD, MS; Demetra E. Antimisiaris, Pharm D, CGP, FASCP; Barbara Resnick, PhD, CRNP; Sheila C. Gencarelli, PharmD

Case of a Frail Older Adult with Advanced Disease and Polypharmacy
Maura J. Brennan, MD; Sharon Leigh, PharmD, BCPS; Pamela Z. Cachione, PhD, CRNP, BC, FGSA, FAAN

10:30 AM – 11:30 AM
QUICK HITS: GERIATRICS SPECIALTY CARE DELIVERY MODELS AVAILABLE FOR IMPLEMENTATION
Room:
CME/CE Credit: 1.0  Track: Clinical Practice
Moderator: Christopher Carpenter, MD
Learning Objectives: (1) review the different care delivery models and programs offered by the AGS and other organizations; (2) discuss the importance of adopting evidence-based program models; and (3) assess which model is a possibility for implementation.

American College of Surgeons (ACS) Geriatric Surgery Verification (GSV) Program
Meixi Ma, MD, MS

Geriatrics Emergency Department Accreditation (GEDA)
Kevin Biese, MD

AGS CoCare: Ortho™
Lynn McNicoll, MD

AGS CoCare: HELP™
Mark A. Supiano, MD
10:30 AM – 11:30 AM
SURVIVE AND THRIVE: THE ROLE OF PERSISTENCE AND RESILIENCE IN TURNING FAILURE INTO SUCCESS IN AGING RESEARCH
Room:
CME/CE Credit: 1.0 Track: Research
Sponsored by the Research Committee, Junior Faculty Research Career Development Special Interest Group, Medical Subspecialities Section, Tideswell Leaders in Aging Program Special Interest Group
Moderator: Melisa L. Wong, MD, MAS
The goal of this symposium is to openly share stories of failures in aging research and lessons learned to build resilience and promote an ongoing culture of mutual support through AGS. Learning Objectives: (1) adopt a growth mindset to recognize that scientific progress is built on failures and setbacks and to see them as opportunities for growth; (2) connect with researchers in aging through personal stories of persistence with embarking on new research questions, obtaining research funding, and adapting in response to disappointing research results; (3) identify strategies to build persistence and resilience in response to failure; and (4) find the courage to show vulnerability and share your own stories of failure and resilience with colleagues and mentees.

Persistence and Resilience in Embarking on New Research Questions
Cynthia J. Brown, MD, MSPH, AGSF

Persistence and Resilience in Obtaining Research Funding
Supriya G. Mohile, MD, MS, FASCO

Persistence and Resilience in Adapting after Unexpected Research Results
Dalane W. Kitzman, MD

CONCURRENT SESSIONS

11:45 AM – 12:45 PM
CONTROVERSIES IN MANAGING ANTICOAGULANTS IN OLDER ADULTS
Room:
CME/CE Credit: 1.0 Track: Clinical Practice
Presenters: Laurie G. Jacobs, MD, AGSF, FACP & Danielle M. Tompkins, PharmD, BCCP
Description coming soon.

11:45 AM – 12:45 PM
NON-PHARMACOLOGIC PAIN MANAGEMENT STRATEGIES: USE OF SUPPLEMENTS, CANNABIDIOL (CBD) AND MIND-BODY THERAPIES
Room:
CME/CE Credit: 1.0 Track: Clinical Practice
Sponsored by the Public Education Committee, Healthy Aging Special Interest Group, Pharmacy Section, Polypharmacy Special Interest Group
Moderator: Jeannie K. Lee, PharmD, BCPS, BCGP, FASHP
This interprofessional symposium will present three unique non-pharmacologic areas of pain management (supplements, CBD, and integrative therapies) and explore culturally relevant communication strategies for patient interview and education. Learning Objectives: (1) recognize common supplements and herbals used for pain management, and be able to assess for adverse effects and drug-disease and drug-drug interactions; (2) describe the data behind the current CBD craze, and be able to clearly advise older patients about risks and benefits in pain management; (3) utilize integrative approaches for pain management, including mindfulness and yoga, and know when to recommend these
in clinical practice; and (4) develop neutral communication techniques when interviewing about the use of CIM in pain, and providing culturally-competent advice on risks and benefits to older patients.

**Use of Supplements in Pain Management**  
Kobi T. Nathan, PharmD, MEd, BA, BCGP

**Use of CBD in Pain Management**  
Lianne (“Annie”) Hirano, MD

**Use of Integrative Therapies in Pain Management**  
Natalia E. Morone, MD

11:45 AM – 12:45 PM  
**NEW FRONTIERS IN GERIATRICS INTERPROFESSIONAL EDUCATION (IPE): EXTENDING THE REACH BEYOND ACADEMIA**  
Room:  
CME/CE Credit: 1.0 Track: Education  
*Sponsored by the Teachers Section; Education Committee; and the IPE Special Interest Group*  
Moderator: Cheryl A. Sadowski, PharmD, BCGP, FCSHP  
Learning Objectives: (1) identify areas of collaboration and development for IPE; (2) explain how academic institutions can collaborate with community-based providers from local services to create and implement geriatrics IP curricula in rural communities; (3) create a process to develop a focused IPE activity, such as an IPE week embedded within an existing curriculum; and (4) describe a model of geriatrics learning community and its impact on patient care in an academic ambulatory care setting.

**Interprofessional Collaboration as an Emerging National Model for Responding to Elder Abuse**  
Carrie Rubenstein, MD & Amanda S. Froh

**Interprofessional Curriculum for the Care of Older Adults (iCCOA): Extending the Reach to Community-Based Organizations**  
Christian D. Furman, MD, MSPH, AGSF & Anna C. Faul, PhD

“**IPE Week**” – How to Incorporate an Interprofessional Education Experience into a Core Geriatric Medicine Rotation  
Ella H. Bowman, MD, PhD, AGSF, FAAHPM

**A Geriatrics Interprofessional Learning Community in an Ambulatory Care Setting**  
Pei Chen, MD

**Mobility and Geriatrics**  
Philip Choe, DO

11:45 AM – 12:45 PM  
**MAKING THE BUSINESS CASE FOR IMPLEMENTING GERIATRICS SPECIALTY CARE DELIVERY MODELS**  
Room:  
CME/CE Credit: 1.0 Track: Clinical Practice  
Moderator: Richard Besdine, MD  
Learning Objectives: (1) review the importance of making a business case to prepare for successful program implementation; (2) discuss the major components needed to build a business case; and (3) obtain techniques for approaching leadership with the business case.

**Welcome and Introductions**
G. Michael Harper, MD

**Making the Business Case – How to do it and Why it's Important**
Lynn H. Spragens, MBA

**Round Table Presentations**
Presentations from institutions who have implemented each care delivery model. They will share lessons learned, what to do, what not to do, and how they made the business case to their leadership to adopt/implement. Participants can rotate to different tables.

**Table 1 – ACS & GSV –**
- Moderator: Meixi Ma, MD
- Presenter: Sandhya A. Lagoo-Deenadayalan, MD, PhD

**Table 2 – AGS CoCare: Ortho™**
- Moderator: Lynn McNicoll, MD
- Presenter: Jenny Y. Shen, MD

**Table 3 – AGS CoCare: HELP™**
- Moderator: Mark A. Supiano, MD
- Presenter: Heidi R. Wierman, MD

**Table 4 – GEDA**
- Moderator: Kevin Biese, MD

**11:45 AM – 12:45 PM**

**LEADERSHIP CURRICULUM**
Room:
CME/CE Credit: 1.0  Track: Professional Development
Description coming soon.

**11:45 AM – 12:45 PM**

**HEALTH SERVICES & POLICY RESEARCH PAPER SESSION**
Room:
CME/CE Credit: 1.0  Track: Research
Moderator: Joshua Chodosh, MD, MSHS
This session will present the latest peer-reviewed geriatrics research with questions and answers to follow. Learning Objectives: (1) discuss new and original geriatrics research; (2) describe an emerging concept or new scientific focus in aging research; and (3) summarize the key findings of projects with relevance to care of older adults.

**P36 – Independence at Home (IAH) at 5: $103 Million in Savings, and 2.9 Million Unserved**
James Rotenberg, MD

Adam Simning, MD, PhD

**P38 – Geographic Variation in Statin Pharmacotherapy Use among Nursing Home Residents with Life-Limiting Illness**
Deborah S. Mack, MPH, PhD Candidate

**P39 – How Did Adding Antipsychotic Drug Quality to the CMS 5-Star Rating System Impact Minority Nursing Home Residents with Dementia**
Shekinah A. Fashaw, MSPH
CONCURRENT SESSIONS

1:00 PM – 2:00 PM
PHARMACOTHERAPY UPDATE: 2020
Room:
CME/CE Credit: 1.0 Track: Clinical Practice
Developed by the Pharmacists Section and the Polypharmacy Special Interest Group
Moderator: Jeannie K. Lee, PharmD, BCPS, BCGP, FASHP

The purpose of this symposium is to educate the audience and summarize the changes over the past year in pharmacotherapy. The speakers will examine information regarding newly approved medications, as well as dietary and herbal supplements. Learning Objectives: (1) communicate the indication for use, mechanism of action, pharmacokinetics, dosing, safety, and drug interactions for newly approved medications; (2) compare potential advantages and disadvantages of incorporating new medications into clinical practice; (3) explain the potential uses, mechanism of action, dosing, safety, and drug/supplement interactions for select dietary and herbal supplements; and (4) evaluate the potential risks and benefits of dietary supplement use in older adults.

Newly Approved Medications and Place in Therapy for Older Adults
Laura A. Hart, PharmD, MS, BCPS, BCGP

Dietary Supplements Commonly Used by Older Adults
Carla J. Bouwmeester, PharmD, MS, BCPS, BCGP

1:00 PM – 2:00 PM
COMPETENT CARE FOR IMMIGRANTS AND REFUGEES
Room:
CME/CE Credit: 1.0 Track: Ethnogeriatrics
Sponsored by the Ethnogeriatrics Committee
Moderator: Lenise A. Cummings-Vaughn, MD, CMD

This session will provide an overview of the magnitude of older adult immigrants and refugees population, challenges specific to immigration status, and accessing health care for cognitive impairment and depression. It will highlight current national standards, relevance and applicability of culturally appropriate approaches and interventions; and possible plans for integration into clinical practice. Learning Objectives: (1) review health care coverage, programs, and services, available to immigrants including updates to related Medicaid programs, National Standards on Culturally and Linguistically Appropriate Services (CLAS) and the Health and Human Services (HHS) strategic plan on language access; (2) describe common legal issues related to advance planning and immigration and their potential impact on the care of older adult immigrants; and (3) identify evaluation strategies for depression and cognitive impairment in immigrants and refugees with Limited English Proficiency.

Health Services Advocacy for Immigrants and Refugees
Marta Pereyra, MSW, LCPC

Intersection of Law and Health Care for Older Immigrants and Refugees
Yvonne Troya, JD

Health Disparities in Depression and Cognition in Multinational Populations
Hanzhang Xu, PhD

1:00 PM – 2:00 PM
SOCIAL ISOLATION: ITS RELATIONSHIP WITH SOCIAL DETERMINANTS OF HEALTH, BIDIRECTIONAL RELATIONSHIP TO HEALTH CONDITIONS, AND HOW IT IMPACTS ACCESS AND DELIVERY OF CARE
Clinicians, while often aware of social isolation as a problem, may lack organizational support to help them care for isolated patients, especially when preventive and chronic disease management are adversely affected. Learning Objectives: (1) define social isolation, its risk factors, and tools for measuring social isolation; (2) review how new ICD-10 codes will capture social barriers to accessing proper care and how this can help improve care; (3) describe how behavioral health and cognitive decline are associated with social isolation; and (4) describe how clinicians can put this information into practice.

**Geographic Variation of Social Isolation Risk Factors**
Rhonda Randall, DO

**Conceptualization and Measurement of Social Isolation**
Harry O. Taylor, PhD, MSW, MPH

**Mental Disorders and Social Suffering in Older People**
Soo Borson, MD

1:00 PM – 2:00 PM
WRITING FOR RESEARCH IMPACT: A WRITING WORKSHOP FOR GERIATRICS RESEARCHERS WHO WANT TO BRIDGE THE TRANSLATION CHASM

The purpose of the workshop is to provide geriatrics researchers with a “toolbox” of skills needed to produce a compelling and persuasive written product. Learning Objectives: (1) describe how writing clearly and persuasively can allow geriatrics researchers to cross the translation divide and ultimately catalyze change in the care of older adults; (2) create an outline for a thought piece for an academic journal that uses this format to articulate a scientific argument; (2) create an outline for an op-ed, letter to the editor, or column that incorporates key principles of effective writing for traditional print media; and (4) draft a blog or tweet that incorporates key principles of effective writing for social media.

**Introduction**
Rebecca T. Brown, MD, MPH & Nicki Hastings, MD, MHS

**How to Write a Thought Piece**
Louise C. Walter, MD

**Writing for Traditional Print Media: Tips and Tricks of the Trade**
Mary H. Palmer, PhD, RN

**Writing for Social Media**
Alexander K. Smith, MD, MS, MPH

**Concurrent Writing Workshop Breakout Groups**
All speakers

1:00 PM – 2:00 PM
PREVENTING HARM IN THE HOSPITAL PAPER SESSION

Room:
CME/CE Credit: 1.0 Track: Research
Sponsored by the Research Committee
Moderator: Barrett Bowling, MD
This session will present the latest peer-reviewed geriatrics research with questions and answers to follow. Learning Objectives: (1) discuss new and original geriatrics research; (2) describe an emerging concept or new scientific focus in aging research; and (3) summarize the key findings of projects with relevance to care of older adults.

**P40 – What Explains Variability in Bed Alarm Use: Unit Practices or Patient Fall Risk?**
Ronald I. Shorr, MD

**P41 – Development of Mayo Delirium Prediction Tool**
