

FRIDAY, MAY 13

CONCURRENT SESSIONS

7:00 AM – 8:00 AM

COFFEE/CONTINENTAL BREAKFAST

Room: Ballroom & Lobby Levels

7:30 AM – 8:30 AM

MANAGING OLDER ADULTS WITH SERIOUS MENTAL ILLNESS: PRACTICAL PEARLS FOR GERIATRICS CLINICIANS

Room: Pacific Hall

CME/CE Credit: 1.0 Track: Clinical Practice

Presenters: Susan W. Lehmann, MD and Shilpa Srinivasan, MD

Older adults with serious mental illness can present management challenges. In this session, geriatric psychiatrists, Susan W. Lehmann, MD and Shilpa Srinivasan, MD, discuss several common serious psychiatric conditions and provide helpful recommendations for best practice and clinical care.

Learning Objectives: (1) describe the approach to evaluating an older patient with affective symptoms; (2) discuss the pharmacologic considerations related to treatment of severe mood disorders in later life; (3) describe the approach to evaluating an older patient with psychotic symptoms; and (4) discuss the pharmacologic considerations related to treatment of psychotic disorders in later life.

7:30 AM – 8:30 AM

RECOMMENDATIONS TO IMPROVE QUALITY OF NURSING HOME CARE FROM THE NATIONAL ACADEMIES OF SCIENCE, ENGINEERING AND MEDICINE

Room: N. Hemisphere E3/4

CME/CE Credit: 1.0 Track: Clinical Practice

Sponsored by the National Academies of Science Engineering and Medicine, AGS and AMDA, the Society for Post-Acute and Long-Term Care

Moderator: Barbara Resnick, PhD, CRNP

This session will present the critical findings and recommendations from the 2022 report of the National Academies of Science Engineering and Medicine Committee on Quality of Care in Nursing Homes.

Learning Objectives: (1) contribute to public policy, research and care delivery design to improve outcomes for residents and staff in US nursing homes; (2) review Committee findings and recommendations to improve staffing; (3) discuss Committee findings and recommendations related to financing and health information technology; and (4) describe Committee findings and recommendations to improve quality assurance and emergency planning.

7:30 AM – 8:30 AM

PERIOPERATIVE GERIATRIC SURGERY CO-MANAGEMENT: THE AMBULATORY EDITION

Room: S. Hemisphere I/II

CME/CE Credit: 1.0 Track: Clinical Practice

Sponsored by the Geriatric Surgical Co-Management Special Interest Group and the Geriatrics for Specialists Initiative

Moderator: Nadia Mujahid, MD, CMD, AGSF

This session will present innovative ways to positively impact and improve the perioperative care of older adults, focused on the period of time prior to surgery and in the outpatient setting. Learning Objectives: (1) describe and contrast different successful ambulatory geriatric surgery co-management models and their specific care management strategies and treatment interventions to improve quality of life and outcomes in older patients prior to surgery; (2) review innovative components for building a future co-management workforce; and (3) discuss working with multiple perioperative disciplines to build an integrated model of care as a perioperative surgical home, highlighting the Geriatric Surgery Verification Program process.

7:30 AM – 8:30 AM

GERIATRIC EDUCATION MATERIALS AND METHODS SWAP II

Room: S. Hemisphere IV/V

CME/CE Credit: 1.0 Track: Education

Sponsored by the Teachers Section and the Education Committee

Moderator: Julia Hiner, MD

This workshop presents a forum for teachers of geriatric education to share topics and materials of common interest, such as program development, curriculum, educational process and research in teaching and evaluation. Learning Objective: (1) describe and exchange geriatric education and teaching materials.

Breaking Down the Hierarchy: Impacts of a CAN Experience on IM Residents

CONSIDERING 'WHAT MATTERS MOST' ACROSS SETTINGS OF CARE PAPER SESSION

Room: Asia 4

CME/CE Credit: 1.0 Track: Research

Developed by the Research Committee

Moderator: Sarah Berry, MD

This session will present the latest peer-reviewed geriatrics research with questions and answers to follow. Learning Objectives: (1) discuss new and original research in geriatrics; (2) describe an emerging concept or new scientific focus in aging research; and (3) summarize the key findings of projects with relevance to care of older adults.

7:30 AM – 8:30 AM

CLINICAL SKILLS WORKSHOP: VERTIGO I

Room: Oceanic 1

CME/CE Credit: 1.0 Track: Clinical Practice

Ticketed session. No additional fee.

Faculty: Anthony G. Arslan, DO; Mithil V. Choksey, MD; Marina L. Blagodatny, MD, CMD

Learning Objectives: (1) review the prevalence and impact of BPV; (2) perform a Dix Halpike and a lateral roll; and (3) perform canalith repositioning maneuvers to diagnose and resolve vertiginous symptoms.

SECTIONS

7:30 AM – 8:30 AM

RESIDENTS SECTION BREAKFAST & FELLOWSHIP FAIR

Room: S. Hemisphere III

Track: Networking

Co-Chairs: Kieran McAvoy, MD & Brent Schell, MD

All residents and 4th year medical students are encouraged to attend this section meeting. Come and meet others and discuss your own ideas about the field and ways to get more involved in AGS. Geriatricians will be present to discuss geriatrics as a career and opportunities in the field. Fellowship directors will be representing their programs at the fellowship fair portion of the section meeting. Breakfast will be served.

7:30 AM – 8:30 AM

WOMEN IN GERIATRICS SECTION BREAKFAST MEETING

Room: Asia 1

Track: Networking

Co-Chairs: Lee A. Jennings, MD, MSHS & Lisa Miura, MD

This Section is intended for AGS members of all disciplines working in geriatrics. The purpose is to provide a forum for women to discuss challenges and share ideas related to their personal and professional lives. This year's topic will be *Redefining Leadership: A Panel Discussion on Defining Leadership, Professional Growth, and Overcoming Challenges as a Female Leader in the*

Field. Panelists: Sharon Inouye, MD, MPH; Amy Westcott, MD, MHPE, CMD, FAAHPM, AGSF; Crystal Burkhardt, PharmD, MBA, BCGP, FCCP. Breakfast will be served.

PLENARY SESSIONS

8:45 AM – 9:30 AM

THOMAS AND CATHERINE YOSHIKAWA OUTSTANDING SCIENTIFIC ACHIEVEMENT FOR CLINICAL INVESTIGATION AWARD LECTURE - EMBRACING COMPLEXITY: A GERIATRICIAN'S APPROACH TO UNDERSTANDING SERIOUS ILLNESS

Room: Pacific Hall

CME/CE Credit: .75 Track: Research

Presenter: Amy S. Kelley, MD, MSHS

Learning objectives: (1) identify the complex layers of personal, social and contextual factors that impact the health and well-being of seriously ill older adults; (2) describe the challenges related to timely identification of those with serious illness; (3) consider the impact of illness and care experiences on care partners and families; and (4) imagine the policies, programs, research and workforce we must develop to improve the care of older adults.

CONCURRENT SESSIONS

10:30 AM – 11:30 AM

LONG-TERM PULMONARY, COGNITIVE AND PSYCHIATRIC OUTCOMES OF COVID-19

Room: Pacific Hall

CME/CE Credit: 1.0 Track: Clinical Practice

Sponsored by the Clinical Research in Dementia Special Interest Group

Moderator: Jin H. Han, MD, MSc & Esther S. Oh, MD, PhD

This program is intended to provide information for health professionals who wish to learn more about long-term clinical outcomes of COVID-19 (long COVID). Learning Objectives: (1) describe current understanding of acute SARS-CoV-2 infection and post-COVID-19 pulmonary outcomes as well as a model for approach to care, with a focus on the importance of rehabilitation throughout the continuum of care; (2) discuss how COVID-19 affects cognitive outcomes and discuss potential interventions to improve cognition; and (3) longitudinally assess psychiatric sequelae of COVID-19 and implement behavioral and pharmacological intervention strategies in clinical practice.

**OPPORTUNITIES, CHALLENGES AND ADAPTABILITY OF IMPLEMENTING PATIENT PRIORITIES
ALIGNED DECISION MAKING IN VARIOUS SETTINGS**

Room: S. Hemisphere I/II

CME/CE Credit: 1.0 Track: Clinical Practice

Sponsored by the Patient Priorities Aligned Care for Older Adults with Multiple Chronic Conditions Special Interest Group

Moderator: Mary E. Tinetti, MD

This symposium is designed for clinicians who desire to provide care aligned with the specific health priorities of their older patients who have multiple chronic conditions. Learning Objectives: (1) adapt and implement patient priorities aligned decision making across different settings; and (2) describe the challenges and opportunities of implementing patient priorities aligned decision making across different settings.

You Can Do Patient Priorities Aligned Decision Making on Your Own

Claire Davenport, MD, MS

Implementing Patient Priorities Care in Primary Care (Where It Isn't Primary)

**SCREENING, DIAGNOSIS, AND MANAGEMENT OF OROPHARYNGEAL DYSPHAGIA AND
ASPIRATION PNEUMONIA**

Room: Asia 1

CME/CE Credit: 1.0 Track: Clinical Practice

Moderator: Liron Sinvani, MD

This interactive workshop is divided into three didactic topic areas delivered by an interprofessional panel (geriatrician, hospitalist, speech pathologist) followed by small group discussions. Learning Objectives: (1) standardize a screening and diagnostic process for older adults with oropharyngeal dysphagia; (2) utilize a more informed decision-making process with patients and caregivers regarding decisions for long-term oral intake and its impact on quality of life; (3) describe the limitations of chest radiographs in diagnosing pneumonia in older adults; and (4) identify risk factors that inform antimicrobial management of aspiration pneumonia.

10:30 AM – 11:30 AM

RECOGNIZING FRAILTY AND PROMOTING RESILIENCE PAPER SESSION

Room: Asia 4

CME/CE Credit: 1.0 Track: Research

Sponsored by the Research Committee

Moderator: Caroline S. Blaum, MD, MS

This session will present the latest peer-reviewed geriatrics research with questions and answers to follow. Learning Objectives: (1) discuss new and original geriatrics research; (2) describe an emerging concept or new scientific focus in aging research; and (3) summarize the key findings of projects with relevance to care of older adults.

Learning Objectives: (1) review the prevalence and impact of BPV; (2) perform a Dix Halpike and a lateral roll; and (3) perform canalith repositioning maneuvers to diagnose and resolve vertiginous symptoms.

10:30 AM – 11:30 AM

JUNIOR FACULTY RESEARCH CAREER DEVELOPMENT SPECIAL INTEREST GROUP MEETING

Room: S. Hemisphere III

Chair: Gregory Ouellet, MD

The Junior Faculty Research Career Development Meeting is a great opportunity for junior faculty and research fellows to meet each other and to receive advice on career development from mid-career and senior faculty. This year will have presentations by Alexander Smith, MD and Amy Kind, MD, the 2021 and 2019 Yoshikawa Awardees for Outstanding Scientific Achievement in Clinical Investigation. These talks will be followed by a panel Q & A about career transition points with Drs. Smith and Kind and the 2019-2021 Outstanding Junior Investigator Awardees: Andrew Cohen, MD; Lauren Ferrante, MD and Nancy Schoenborn, MD.

PLENARY SESSION

11:30 AM – 12:30 PM

RIDING ROLLER COASTERS: THE UPS AND DOWNS OF PUBLIC POLICY DURING A PANDEMIC

Room: Pacific Hall

CME/CE Credit: 1.0 Track: Public Policy

Moderator: Peter A. Hollmann, MD, AGSF

This session presents some of the major AGS achievements over the past two years as well as our ongoing AGS work throughout the pandemic. A few major highlights will cover the intersection of structural racism and ageism in AGS public policy activities; FDA approval and Medicare coverage of Aducanumab; and influencing and improving payment accuracy and services for older adult care.

Learning Objectives: (1) describe legislative and regulatory opportunities for influencing public policy; and (2) discuss how AGS incorporates new public policy priorities into its existing advocacy efforts and how the Society works in coalition.

Intersection of Structural Racism and Ageism

William Hung, MD, MPH

FDA Approval and Medicare Coverage of Aducanumab

1:30 PM – 2:30 PM

EVIDENCE-BASED PRESCRIBING AND DE-PRESCRIBING IN THE MILD, MODERATE & LATE-STAGES OF DEMENTIA

Room: Pacific Hall

CME/CE Credit: 1.0 Track: Clinical Practice

Sponsored by the Clinical Practice and Models of Care Committee; Pharmacy Section; Nurses Section

Moderator: Zaldy S. Tan, MD, MPH, FACP

Given the differing needs and vulnerabilities of persons living with dementia in the mild, moderate and late stages, decisions regarding prescribing need to be individualized. Learning Objectives: (1) discuss the evidence behind, and clinical considerations for, prescribing FDA-approved medications for Alzheimer's disease and related dementias; (2) describe the use of the 5Ms framework in deciding what and when to deprescribe or whether to continue chronic disease management medications in each stage of dementia; (3) relate deprescribing to patients, caregivers and family members, as a positive part of dementia care, as opposed to withdrawal of care; and (4) project targets for deprescribing for dementia patients, in accordance with expected disease progression over time.

TECHNOLOGICAL INNOVATIONS IN HEARING HEALTHCARE

Room: S. Hemisphere I/II

CME/CE Credit: 1.0 Track: Clinical Practice

Sponsored by the Health Innovations - Economics and Technology Committee

Moderator: Margaret I. Wallhagen, PhD, GNP-BC, AGSF, FGSA, FAAN

Learning Objectives: (1) identify the impact of hearing loss on individuals and their families and the value of technology in promoting communication access; (2) discuss three new technological advances in hearing technology; (3) describe the purpose and implications of the legislation that has mandated that the FDA develop criteria for and regulations of over-the-counter hearing aids; and (4) develop strategies to incorporate hearing healthcare and available technologies to address communication barriers within their healthcare setting – acute, long-term, or primary care.

LIGHTNING SCIENCE: BRIEF PRESENTATIONS OF TOP-RATED ABSTRACTS

Room: N. Hemisphere E3/4

CME/CE:1.0 Track: Research

Sponsored by the Research Committee

Co-Moderators: Heather E. Whitson, MD, MHS; Camille P. Vaughan, MD, MS; Peter M. Abadir, MD
Communications Coach: John P. Beilenson, MA (Strategic Communications & Planning)

This fast-paced, interactive session will showcase some of the meeting's best new research and innovation. Top-rated abstracts submitted to AGS are selected for inclusion. Presenters will give the highlights of their research findings in five minutes or less and the audience will have an opportunity to discuss and ask questions. Learning Objectives: (1) describe at least one emerging concept or new scientific focus in aging research; (2) summarize the key findings of at least three projects with relevance to care of older adults; and (3) identify at least three AGS-affiliated individuals conducting exciting research in aging.

WRITING AND REVIEWING FOR THE JOURNAL OF THE AMERICAN GERIATRICS SOCIETY (JAGS)

Room: Asia 5

CME/CE Credit: 1.5 Track: Research

Co-Moderators: Ellen F. Binder, MD & Alexander K. Smith, MD, MS, MPH

Faculty: Joseph G. Ouslander, MD; Michael W. Rich, MD, AGSF; David B. Reuben, MD; George A. Kuchel, MD; Deborah Saliba, MD, MPH; Soo Borson, MD; Christine Bradway, PhD, RN; Joshua Chodosh, MD, MSHS; Nicholas Pajewski, PhD; Alayne D. Markland, DO, MSc; Sean X. Leng, MD, PhD
This workshop is intended for persons who want to submit to, and/or review research articles for the Journal of the American Geriatrics Society (JAGS), including the JAGS Junior Reviewers. Participants will work in small groups, with facilitation by JAGS editorial board members, to review an article on site, using the JAGS review checklist, discuss the findings, and present their conclusions. Prior to the workshop, participants will be expected to have reviewed an online webinar that describes how a review for JAGS should be conducted and offers a working example of such a review. Learning Objectives: (1) use the JAGS checklist to review an article; (2) decide what recommendation to give about acceptance; and (3) review what steps are needed for improving the paper.

2:00 PM – 3:00 PM

UPDATE IN STABLE ISCHEMIC HEART DISEASE FOR CLINICIANS CARING FOR OLDER ADULTS

Room: Pacific Hall

CME/CE Credit: 1.0

Track: Clinical Practice

Moderator: Ashok Krishnaswami, MD, MAS

This session will review current evidence-based testing, revascularization methods, and cardiovascular pharmacotherapy in older adult patients suspected of or with ischemic heart disease while considering underlying geriatric conditions and individual patient-centered outcomes. Learning Objectives: (1) describe current testing modalities in patients presenting with SIHD; (2) discuss current revascularization modalities in patients presenting with SIHD; (3) review commonly used cardiovascular pharmacotherapeutics and the benefits/harms in older adults; and (4) incorporate geriatric conditions and patients' goals of care (i.e., desired outcome to treatment burden willing to be endured).

RECOGNIZING AND RESPONDING TO RACIAL MICROAGGRESSIONS IN OUR CLINICAL LEARNING ENVIRONMENTS: A SKILL-BUILDING WORKSHOP

Room: S. Hemisphere III

CME/CE Credit: 1.0

Track: Professional Development

Sponsored by the Education Committee, Teachers Section, and the Achieving Health Equity Among Diverse Older Adults (AHEAD) Special Interest Group

Moderator: Anna Goroncy, MD, MEd

This is an educational workshop incorporating an interactive exercise to train participants to identify and respond to racial microaggressions in clinical settings. Learning Objectives: (1) define and identify microaggressions in healthcare interactions; (2) describe how microaggressions impact the lives of trainees and their clinical learning environments; (3) utilize strategies and skills to respond to and interrupt microaggressions; and (4) demonstrate skills for teaching about responding to microaggressions in their institution.

SEPSIS IN NURSING HOME RESIDENTS: RECOGNITION AND RESPONSE

Room: N. Hemisphere E3/4

CME/CE Credit: 1.0 Track: Clinical Practice

Sponsored by AMDA, the Society for Post-Acute and Long-Term Care

Moderator: Philip D. Sloane, MD, MPH

This session will address the presentation of sepsis in older adults, early recognition of sepsis in nursing home residents, and strategies to optimize outcomes in this setting. It also will discuss realistic expectations for managing sepsis based on the staff, training, and resources available in most nursing home settings. Learning Objectives: (1) describe the clinical presentation of sepsis in older nursing home residents; (2) discuss initial assessment and principles of management in older adults with suspected sepsis including discussion on how to manage suspected sepsis in the context of antibiotic stewardship. In this objective we will also review common misconceptions related to antimicrobial stewardship and concerns related to rehospitalizations for severe infections; (3) discuss the benefits and limitations of currently available early recognition tools for sepsis in nursing homes and review currently available algorithms for diagnosis and management; and (4) recognize the risks and benefits of attempting to manage sepsis in nursing homes.

TURNING CHALLENGE INTO OPPORTUNITY: EMBRACING TELEHEALTH AND TECHNOLOGY WITH LEARNERS IN GERIATRICS

Room: Asia 1

CME/CE Credit: 1.0 Track: Education

Sponsored by the Teachers Section and the Education Committee

Moderator: Becky B. Powers, MD, AGSF

This workshop will provide educators with tips for teaching geriatrics specific telehealth skills to learners of multiple levels in multiple settings. Introductory didactic talks will be followed by jigsaw breakouts where attendees will apply the competencies and tips to various learners/settings, followed by facilitated discussion/presentations to discuss telehealth teaching. Learning Objectives: (1) describe successful precepting techniques for telehealth including incorporation of geriatric assessments into virtual visits; (2) describe models used to teach telehealth with older adults in outpatient, home care, and sub-acute settings; and (3) discuss interprofessional telehealth competencies for video telehealth with older adults and how a shared mental model of a successful telehealth visit can lead to more robust curriculum development.

POSTER SESSION D: STUDENTS & RESIDENTS

Room: Atlantic Hall

Sponsored by the AGS Health in Aging Foundation

View the most current research in geriatrics. Authors will be available to discuss the presented findings and answer questions. Resident posters will be judged, with participation certificates and awards in several categories to be presented at the end of the poster session.

PLENARY SESSION

4:00 PM – 5:30 PM

MANAGING CHRONIC PAIN IN OLDER ADULTS: REDUCING PROVIDER FRUSTRATION USING UP-TO-DATE ASSESSMENT AND MANAGEMENT APPROACHES

Room: Pacific Hall

CME/CE Credit: 1.5 Track: Clinical Practice

Moderator: Keela A. Herr, PhD, RN, AGSF, FGSA, FAAN

This symposium addresses key topics and controversies related to effective management of chronic pain in older adults primarily in the ambulatory care setting. Best practice recommendations are integrated through use of case presentations and discussion of current care priorities. Challenges providers face in recognizing and evaluating pain effectively and determining the safest treatment options that support maximal function outcomes will be considered. The role of technology (e.g., mobile apps, wearables) as a tool to enhance outcomes among older persons and their caregivers dealing with pain are highlighted. Learning Objectives: (1) identify clinically useful assessment tools to establish comprehensive view of older adults' chronic pain problem, with an emphasis on multidimensional assessment tools; (2) discuss effective nonpharmacologic interventions with low risk of adverse effects to optimize pain management in

older adults; (3) recognize benefits and risks of selected pharmacologic treatments to guide chronic pain management in older adults; and (4) consider technological approaches to address barriers and offer interventions for pain management in older adults with chronic pain.

Assessing & Diagnosis—Getting the Treatment Target Right

Keela A. Herr, PhD, RN, AGSF, FGSA, FAAN

Optimizing Chronic Pain Treatment with Nonpharmacologic Interventions

Christine S. Ritchie, MD, MSPH, AGSF, FAAHPM, FACP

Judicious Pharmacologic Treatment Choices for Chronic Pain

Cary Reid, MD, PhD

Role of Technological Approaches to Chronic Pain Management

Amber Brooks, MD

6:00 PM – 7:00 PM

FUN STATIONS: TEST YOUR SKILLS AND WIN PRIZES!

Room: S. Hemisphere III

Track: Networking

Trainees will be testing their knowledge via interactive quiz stations supervised by Geriatric Faculty from various Universities/Medical Centers. Students, residents and fellows will have the opportunity to network and interact with leaders in geriatric education. Questions will address important geriatric topics, such as aging physiology and its effects on disease, dermatological conditions, functional impairment and use of assistive devices. Come learn, have fun, and win prizes in a relaxed setting!

SPECIAL INTEREST GROUPS

6:00 PM - 7:00 PM

CARE TRANSITIONS

Room: S. Hemisphere I/II

Track: Networking

Co-Chairs: Timothy W. Farrell, MD, AGSF; Ugochi Ohuabunwa, MD; Jessica Wright, PA-C

Come join us for a presentation on a care transitions topic (TBD), networking with peers interested in care transitions, and discussion of opportunities to participate in symposia submissions for next year's AGS meeting.

6:00 PM - 7:00 PM

ETHNOGERIATRICS

Room: Europe 5

Track: Networking

Co-Chairs: Jeffrey D. Mariano, MD & Olga Olivares-Herrera, MD

The Ethnogeriatrics SIG is open to anyone with an interest in the relationship between aging, ethnicity, clinical practice and research. Participants will discover what projects are being developed by the SIG and Committee and offer suggestions for future AGS symposia. New ideas are welcome. The group's endeavors include recognizing challenges and developing practical solutions to providing appropriate care to different cultures and ethnicities in our diverse country. Members are encouraged to share and participate in the development of new educational materials focusing on key issues affecting ethnic minorities in the 21st century.

6:00 PM – 7:00 PM

FAMILY PHYSICIANS IN GERIATRICS

Room: N. Hemisphere E3/4

Track: Networking

Chair: Erik J. Lindbloom, MD, MSPH

This group addresses issues of concern to family physicians, family medicine fellows, and family medicine residents caring for older adults. We communicate with several of the other family medicine organizations, including the American Academy of Family Physicians and the Society of Teachers of Family Medicine.

6:00 PM - 7:00 PM

GERIATRIC ACADEMIC CAREER AWARD (GACA)

Room: Oceanic 3

Track: Networking

Co-Chairs: Mamata Yanamadala, MD; Laura Byerly, MD; Lauren Hersh, MD

This year's GACA SIG meeting is for current GACA awardees as an opportunity to meet and connect in-person for the first time. The meeting will provide space for informal and formal networking. The SIG meeting will include time to brainstorm in small groups about ways to collaborate as well as share existing project resources with each other.

6:00 PM - 7:00 PM

GERIATRICS CONSULTATIVE SERVICES

Room: Europe 6

Track: Networking

Chair: Ella H. Bowman, MD, PhD, AGSF, FAAHPM

This meeting is open to anyone interested in geriatric medicine consultative services across all care settings. Participants will explore how geriatrics consultative services are provided in various clinical settings. Discussion topics vary from year to year and have included: how to best market ourselves in a climate that is starting to better understand value based metrics; how to focus our services on those who need us most given the dearth of board certified geriatricians across the country; how to collaborative efforts with other services in co-management and other arrangement; billing processes and concerns; and incorporating geriatrics interprofessional teaching within the consultative setting.

6:00 PM - 7:00 PM

GERIATRIC-SURGICAL CO-MANAGEMENT PROGRAMS

Room: Asia 2

Track: Networking

Chair: Lynn McNicoll, MD

Interested in Co-Management? Thinking about starting it at your institution? Join us at the Geriatric-Surgical Co-Management SIG meeting to network with both experts and novices seeking to improve the management of elderly surgical patients. Come learn about the new AGS CoCare: Ortho Dissemination Project from the leaders in the field. It is also a great opportunity for programs to showcase their successes and challenges.

6:00 PM – 7:00 PM

HEALTH SYSTEMS LEADERSHIP (HSL) IN GERIATRICS

Room: S. Hemisphere IV/V

Co-Chairs: Anna Chodos, MD & Kellie L. Flood, MD

The mission of the HSL SIG is to explore principles of leadership, management, and systems transformation as it applies to the growing need for geriatrics in health systems and to present strategies to accomplish this. Our goals are to educate AGS members about these principles, highlight successful work in HSL, and present opportunities for training in HSL workshop leadership.

6:00 PM – 7:00 PM

HOME BASED PRIMARY CARE

Room: Oceanic 4

Co-Chairs: Melissa Dattalo, MD; Namirah Jamshed, MD; Rachel Jankowski

The mission of this new SIG is to ensure every chronically ill, medically complex patient who is homebound and in need has access to quality HBPC that results in a profound improvement in medical outcomes, patient and family experience, and healthcare spending.

6:00 PM – 7:00 PM
INFORMATION TECHNOLOGY ISSUES

Room: Asia 3

Track: Networking

Chair: Irene Hamrick, MD

The IT Issues Special Interest Group serves the AGS Membership by establishing a venue for members with an interest in information technology as it applies to geriatrics. An important focus of this SIG is to provide information, support and an organized center for coordinating information and resources to optimize the use of EHR in a senior health care environment. This includes ambulatory and long-term care senior health care settings and the transitions of care from one setting to another. Beyond health information exchange, this SIG also encompasses telemedicine and computerized assessment/biotechnology advancements including vital signs, laboratory testing, and imaging from remote locations. The current politics of health care reform, reimbursement and research as applicable to information technology are also areas of intense interest for this group, as are security, privacy, costs, expansion, educational opportunities and future development of IT as societal demands on its role in geriatric medicine increase.

6:00 PM – 7:00 PM
PATIENT PRIORITIES ALIGNED CARE FOR OLDER ADULTS WITH MULTIPLE CHRONIC CONDITIONS

Room: Northern Hemisphere A

Track: Networking

Chair: Claire Davenport, MD & Ardeshir Hashmi, MD

Have you ever wondered how you might align care with what Matters Most to patients in your clinical practice, university or health system? Come hear members pitch their implementation ideas and projects with Patient Priorities Care in a variety of care settings. Here is the perfect opportunity to receive or give feedback with colleagues and Patient Priorities Care experts. We will be serving refreshments and have plenty of time to socialize. We do hope you will join us.

6:00 PM – 7:00 PM
POST-ACUTE AND LONG-TERM CARE

Room: Asia 4

Track: Networking

Co-Chairs: Verna R. Sellers, MD, MPH, CMD, AGSF & Tsewang Ngodup, MD

This SIG focuses on issues related to Post-Acute and Long-Term Care Medicine. The COVID pandemic exposed the gaps in post-acute and LTC specifically staffing. Now in year 2 many health care workers have left the bedside and the remaining staff is suffering from burn out and apathy. The skilled nursing facilities (SNF) and home health agencies are expected to provide "value based" care and reduce avoidable readmissions in accordance with The Protecting Access to Medicare Act 2014. The emphasis on quality measures remains and there is a push to require increase staffing in SNF. However where will we find people to fill the SNF positions? Come prepared to share your thoughts, expertise and learn from your peers.

6:00 PM – 7:00 PM
WOUND PREVENTION AND MANAGEMENT

Room: Oceanic 1

Track: Networking

Co-Chairs: Veronica Nwagwu, MD & Sarwat Jabeen, MD, FAAFP

The Wound Prevention and Management SIG is an interdisciplinary group of healthcare professionals who strive to improve outcomes in skin and wound health in vulnerable older adults through supporting education, research, and quality improvement initiatives. The SIG serves as a platform to discuss educational initiatives at AGS, policy objectives so that we may get our patients "what they need to get

those wounds closed”, and updates on emerging research. We welcome all interested, regardless of experience.
