Poster Session C (authors present)	12:30 – 1:30 PM
Poster Session D (authors present)	2:45 - 3:45 PM

AGS MARKETPLACE

Drop by the AGS Marketplace Booth, to find out about new services and products.

GeriatricsCareOnline.org

GeriatricsCareOnline is your one-stop online resource for all AGS publications and products. Build your own library of AGS products & resources on GeriatricsCareOnline. Visit the AGS Marketplace and take a personal tour.

AGS Store

Preview and purchase AGS publications including: the 2022 Edition of *Geriatrics at Your Fingertips*, the 11th Edition of the *Geriatrics Review Syllabus (GRS)* and the 7th Edition of the *Geriatric Nursing Review Syllabus (GNRS)*.

HealthinAging.org

Created by the AGS Health in Aging Foundation, HealthinAging.org provides older adults and their caregivers with up-to-date information on health and aging.

AGS Membership

AGS membership staff welcomes the opportunity to help you with your member needs and answer any questions you may have regarding membership and benefits, as well as provide you

with up-to-date news on AGS initiatives. Get the information you need or just stop by and print your AGS Annual Meeting Certificate of Attendance.

AGS State Affiliates

The AGS has a network of over two dozen state affiliates across the country. Stop by and learn more about the affiliate in your state or learn how you can help get one started.

Aquifer Geriatrics

Aquifer Geriatrics — the AGS national online curriculum for medical and health professions students - is the ideal course for use within a geriatrics, internal medicine, or family medicine clerkship. Come by to learn more about our course offerings.

AGS CoCare®

AGS CoCare® is a suite of programs helping embed geriatrics expertise in broader care for older adults. The AGS CoCare® programs provide institutions with a variety of resources to help support the implementation of its specific program model, through access to our tools, resources, training, and technical assistance.

- AGS CoCare®: HELP, formerly known as the Hospital Elder Life Program, is a well-studied, effective, and innovative model of hospital care designed to prevent both delirium and functional decline.
- AGS CoCare®: Ortho is a Geriatrics-Orthopedics Co-Management model in which geriatrics professionals, or specially trained geriatrics co-managers (e.g., hospitalists) work with orthopedic surgeons to coordinate and improve the perioperative care of older adults with hip fractures.

The Alzheimer's and Dementia Care Program™

Come learn about the Alzheimer's and Dementia Care (ADC) Program™. AGS is partnering with UCLA to promote dissemination of this award-winning model of comprehensive, coordinated, patient-centered care dementia care that is based in healthcare systems and partners with community-based organizations (CBOs). The goals of the program are to maximize patient function, independence, and dignity, minimize caregiver strain and burnout, and reduce unnecessary costs through improved care. With support of the John A. Harford Foundation, UCLA can help your health system implement the program.

Health Resources and Services Administration: Bureau of Health Professions

Representatives from HRSA, Bureau of Health Professions will be available to answer any questions you may have throughout the conference.

EXHIBITS

ACEP Geriatric Emergency Department Accreditation Program
4950 w. Royal Lane

128

Irving, Texas 75063
ntidwell@acep.org
acep.org/GEDA

Improve the care provided to older adults by becoming an accredited Geriatric Emergency Department. Visit booth 128 to learn how to become accredited and show the public that your institution is focused on the highest standards of geriatric care.

AdventHealth Well65+

126

483 Keller Road, Suite 250
Maitland, FL 32751
sarah.doherty@adventhealth.com
<https://www.adventhealth.com/adventhealth-well-65>

AdventHealth Well 65+ is a concierge-style retail clinic that exclusively serves seniors in value-based care arrangements. Well 65+ care teams work together to manage smaller panel sizes, develop relationships with their members, and proactively plan and manage those patients' whole-person care. AdventHealth is a faith-based, non-profit health care system.

American Federation for Aging Research/Clin-STAR Coordinating Center

127

55 W. 39th Street
16th Floor
New York, NY 10018
andrea@afar.org
clin-star.org

The NIA-funded Clinician-Scientists Transdisciplinary Aging Research (Clin-STAR) Coordinating Center organizes activities and resources for the cultivation, connection, and synergy of clinician-scientists in aging research from disparate specialties. Initiatives include a database of aging research clinician-investigators, pilot grants, outreach funds, webinars, SIGs, resources, and mentoring support.

Amgen**206**

One Amgen Center Drive 36-2-A
Thousand Oaks, CA 91320
papark@amgen.com
www.amgen.com

Amgen is committed to unlocking the potential of biology for patients suffering from serious illnesses by discovering, developing, manufacturing, and delivering innovative human therapeutics. A biotechnology pioneer since 1980, Amgen has reached millions of patients around the world and is developing a pipeline of medicines with breakaway potential.

Aquifer**Marketplace**

21 Lafayette St
Lebanon, NH 03766
subscriptions@aquifer.org
www.aquifer.org

Oak Street Health**107**

30 W Monroe
Chicago, IL 60603
provider.services@oakstreethealth.com
<https://www.oakstreethealth.com/>

Oak Street Health is rebuilding healthcare as it should be. Since our founding in 2012, our mission has been to build a primary care delivery platform that directly addresses rising costs and poor outcomes, two of the most pressing challenges facing the United States healthcare industry.

At Oak Street Health, our primary care providers are specialized in caring for Medicare patients and seniors with a preventative care focus that strives to keep you healthy and out of the hospital. Our state-of-the-art facilities are set up to handle what seniors need most, including community rooms to offset isolation, in-center pharmacies in some centers, and even behavioral health specialists. And we're conveniently located in the communities where our patients live, providing access to high-quality care.

Ochsner Health**129**

1514 Jefferson Hwy
Ste 640
New Orleans, LA 70121
katherine.braun@ochsner.org
ochsner.org

1800 Harrison St.
7th Floor
Oakland, CA 94612
connor.d.ramey-torres@kp.org
<https://tpmg.permanente.org/careers/>

The Permanente Medical Group (TPMG) is the largest medical group in the United States—and one of the most distinguished. Our 9,300 physicians and 40,000 nurses and staff are leading the transformation of health care. Through nation-leading quality, preeminent research, and superior technology systems, we are delivering superior clinical outcomes, and having a positive and often life-changing impact on the health of our 4.4 million patients in Northern California.

In partnership with Kaiser Foundation Hospitals and Health Plan in Northern California, we are a leader in disease prevention, early intervention and world-class specialty care treatment, including cardiovascular, perinatal and neurosurgical care, sepsis survival, and more. Our physicians innovate every day for better outcomes for patients, supported by some of the most

comprehensive disease registries in the world and an integrated health care model. From our world-class electronic health record to a seamless care experience for our patients, we set the standard in health care.

Learn more about practicing throughout Northern and Central California by visiting <http://tpmg.permanente.org> or e-mailing us at MDRecruitment.TPMG@kp.org

Toi Labs

106

1830 Harrison Street
San Francisco, CA, 94103
george@toilabs.com
www.toilabs.com

The TRUELOO® smart toilet seat scans human output to enable better health and wellness. Today, toilet logging is performed by senior living care staff to identify important changes that could be indicative of UTIs, dehydration, bleeding, and infectious diseases. TRUELOO® replaces an existing toilet seat within minutes and requires no effort by the resident or care staff to use. It automates the toilet logging process and has been proven to be 100x+ more accurate and timely than current practice.
