

FRIDAY, MAY 13

CONCURRENT SESSIONS

7:30 AM – 8:30 AM

GEROPSYCH SYMPOSIUM

Room:

CME/CE Credit: 1.0

Track: Clinical Practice

Description coming soon.

7:30 AM – 8:30 AM

RECOMMENDATIONS TO IMPROVE QUALITY OF NURSING HOME CARE FROM THE NATIONAL ACADEMIES OF SCIENCE, ENGINEERING AND MEDICINE

Room:

CME/CE Credit: 1.0

Track: Clinical Practice

Sponsored by the National Academies of Science Engineering and Medicine, AGS and AMDA, the Society for Post-Acute and Long-Term Care

Moderator: Barbara Resnick, PhD, CRNP

This session will present the critical findings and recommendations from the 2022 report of the National Academies of Science Engineering and Medicine Committee on Quality of Care in Nursing Homes.

Learning Objectives: (1) contribute to public policy, research and care delivery design to improve outcomes for residents and staff in US nursing homes; (2) review Committee findings and recommendations to improve staffing; (3) discuss Committee findings and recommendations related to financing and health information technology; and (4) describe Committee findings and recommendations to improve quality assurance and emergency planning.

NASEM Committee on Nursing Home Quality: Overview of Task and Guiding Principles

Debra Saliba, MD, MPH, AGSF

Building a Workforce to Meet Complex and Diverse Resident Needs

Jasmine L. Travers, PhD, MHS, RN, AGPCNP-BC

Findings and Recommendations for Financing of Care and Building Health Information Technology

Philip D. Sloane, MD, MPH

Designing a More Effective and Responsive Approach to Quality Assurance and Emergency Planning

Debra Saliba, MD, MPH, AGSF

7:30 AM – 8:30 AM

PERIOPERATIVE GERIATRIC SURGERY CO-MANAGEMENT: THE AMBULATORY EDITION

Room:

CME/CE Credit: 1.0

Track: Clinical Practice

Sponsored by the Geriatric Surgical Co-Management Special Interest Group and the Geriatrics for Specialists Initiative

Moderator: Nadia Mujahid, MD, CMD, AGSF

This session will present innovative ways to positively impact and improve the perioperative care of older adults, focused on the period of time prior to surgery and in the outpatient setting. Learning Objectives:

(1) describe and contrast different successful ambulatory geriatric surgery co-management models and their specific care management strategies and treatment interventions to improve quality of life and

outcomes in older patients prior to surgery; (2) review innovative components for building a future co-management workforce; and (3) discuss working with multiple perioperative disciplines to build an integrated model of care as a perioperative surgical home, highlighting the Geriatric Surgery Verification Program process.

Ambulatory Geriatric Surgery Co-Management at Mount Sinai Hospital

Stephanie W. Chow, MD, MPH

Achieving Age-Friendly Health Care in an Academic Center for Perioperative Medicine

Heather Lander, MD

Multidisciplinary Co-Management for the Older Rural Surgical Patient

Stacie G. Deiner, MS, MD

7:30 AM – 8:30 AM

GERIATRIC EDUCATION MATERIALS AND METHODS SWAP II

Room:

CME/CE Credit: 1.0 Track: Education

Sponsored by the Teachers Section and the Education Committee

Moderator: TBD

This workshop presents a forum for teachers of geriatric education to share topics and materials of common interest, such as program development, curriculum, educational process and research in teaching and evaluation. Learning Objective: (1) describe and exchange geriatric education and teaching materials.

7:30 AM – 8:30 AM

PAPER SESSION

Room:

CME/CE Credit: 1.0 Track: Research

Developed by the Research Committee

Moderator: TBD

This session will present the latest peer-reviewed geriatrics research with questions and answers to follow. Learning Objectives: (1) discuss new and original research in geriatrics; (2) describe an emerging concept or new scientific focus in aging research; and (3) summarize the key findings of projects with relevance to care of older adults.

7:30 AM – 8:30 AM

CLINICAL SKILLS WORKSHOP: VERTIGO I

Room:

CME/CE Credit: 1.0 Track: Clinical Practice

Ticketed session. No additional fee.

Faculty: Anthony G. Arslan, DO; Mithil V. Choksey, MD; Marina L. Blagodatny, MD, CMD

Learning Objectives: (1) review the prevalence and impact of BPV; (2) perform a Dix Halpike and a lateral roll; and (3) perform canalith repositioning maneuvers to diagnose and resolve vertiginous symptoms.

SECTIONS

7:30 AM – 8:30 AM

RESIDENTS SECTION BREAKFAST & FELLOWSHIP FAIR

Room:

Track: Networking

Co-Chairs: Kieran McAvoy, MD & Brent Schel, MD

All residents and 4th year medical students are encouraged to attend this section meeting. Come and meet others and discuss your own ideas about the field and ways to get more involved in AGS. Geriatricians will be present to discuss geriatrics as a career and opportunities in the field. Fellowship directors will be representing their programs at the fellowship fair portion of the section meeting. Breakfast will be served.

7:30 AM – 8:30 AM

WOMEN IN GERIATRICS SECTION BREAKFAST MEETING

Room:

Track: Networking

Co-Chairs: Lee A. Jennings, MD, MSHS & Lisa Miura, MD

This Section is intended for AGS members of all disciplines working in geriatrics. The purpose is to provide a forum for women to discuss challenges and share ideas related to their personal and professional lives. Breakfast will be served.

PLENARY SESSIONS

8:45 AM – 9:30 AM

AGS AWARDS CEREMONY

Room:

Please join us as we honor and celebrate this year's prestigious award winners.

Edward J. Henderson Student Award

Clinical Student Research Award

Scientist-in-Training Research Award

Health in Aging Foundation New Investigator Awards

Outstanding Junior Investigator of the Year Award

Outstanding Junior Research Manuscript Award

Outstanding Junior Clinician Educator of the Year Award

Outstanding Junior Clinician Education Manuscript Award

Outstanding Mid-Career Clinician Educator of the Year Award

AGS *Choosing Wisely* Champion

State Affiliate Achievement Award

Presidential Poster Awardees

Jeffrey H. Silverstein Memorial Award for Emerging Investigators in the Surgical and Related Medical Specialties Who Are Focused on the Care of Older Adults

Arti Hurria Memorial Award for Emerging Investigators in Internal Medicine Who Are Focused on the Care of Older Adults

Clinician of the Year Award

Dennis W. Jahnigen Memorial Award

Nascher Manning Award

David H. Solomon Memorial Public Service Award

CONCURRENT SESSIONS

10:30 AM – 11:30 AM

LONG-TERM PULMONARY, COGNITIVE AND PSYCHIATRIC OUTCOMES OF COVID-19

Room:

CME/CE Credit: 1.0

Track: Clinical Practice

Sponsored by the Clinical Research in Dementia Special Interest Group

Moderator: Jin H. Han, MD, MSc & Esther S. Oh, MD, PhD

This program is intended to provide information for health professionals who wish to learn more about long-term clinical outcomes of COVID-19 (long COVID). Learning Objectives: (1) describe current understanding of acute SARS-CoV-2 infection and post-COVID-19 pulmonary outcomes as well as a model for approach to care, with a focus on the importance of rehabilitation throughout the continuum of care; (2) discuss how COVID-19 affects cognitive outcomes and discuss potential interventions to improve cognition; and (3) longitudinally assess psychiatric sequelae of COVID-19 and implement behavioral and pharmacological intervention strategies in clinical practice.

10:30 AM – 11:30 AM

OPPORTUNITIES, CHALLENGES AND ADAPTABILITY OF IMPLEMENTING PATIENT PRIORITIES ALIGNED DECISION MAKING IN VARIOUS SETTINGS

Room:

CME/CE Credit: 1.0

Track: Clinical Practice

Sponsored by the Patient Priorities Aligned Care for Older Adults with Multiple Chronic Conditions Special Interest Group

Moderator: Mary E. Tinetti, MD

This symposium is designed for clinicians who desire to provide care aligned with the specific health priorities of their older patients who have multiple chronic conditions. Learning Objectives: (1) adapt and implement patient priorities aligned decision making across different settings; and (2) describe the challenges and opportunities of implementing patient priorities aligned decision making across different settings.

You Can Do Patient Priorities Aligned Decision Making on Your Own

Claire Davenport, MD, MS

Implementing Patient Priorities Care in Primary Care (Where It Isn't Primary)

10:30 AM – 11:30 AM

2021 U13 CANCER AND CARDIOVASCULAR DISEASE CONFERENCE PROCEEDINGS

Room:

CME/CE: 1.0

Track: Research

Sponsored by the Research Committee

Learning Objectives: (1) list specific challenges in medical decision-making for patients with comorbid cancer and heart disease; (2) discuss the role of technology or mobile health in promoting behavioral and lifestyle change in these populations; and (3) describe biological and social factors that contribute to the common co-occurrence of cancer and cardiovascular disease in older Americans.

SCREENING, DIAGNOSIS, AND MANAGEMENT OF OROPHARYNGEAL DYSPHAGIA AND ASPIRATION PNEUMONIA

Room:

CME/CE Credit: 1.0

Track: Clinical Practice

Moderator: Liron Sinvani, MD

This interactive workshop is divided into three didactic topic areas delivered by an interprofessional panel (geriatrician, hospitalist, speech pathologist) followed by small group discussions. Learning Objectives: (1) standardize a screening and diagnostic process for older adults with oropharyngeal dysphagia; (2) utilize a more informed decision-making process with patients and caregivers regarding decisions for long-term oral intake and its impact on quality of life; (3) describe the limitations of chest radiographs in diagnosing pneumonia in older adults; and (4) identify risk factors that inform antimicrobial management of aspiration pneumonia.

Screening and Diagnosis of Oropharyngeal Dysphagia

Megan A. Hartpence, MS CCC-SLP

Management of Oropharyngeal Dysphagia

Diagnosis, Management, and Prevention of Aspiration Pneumonia

Alex Makhnevich, MD

10:30 AM – 11:30 AM

PAPER SESSION

Room:

CME/CE Credit: 1.0 Track: Research

Sponsored by the Research Committee

Moderator: TBD

This session will present the latest peer-reviewed geriatrics research with questions and answers to follow. Learning Objectives: (1) discuss new and original geriatrics research; (2) describe an emerging concept or new scientific focus in aging research; and (3) summarize the key findings of projects with relevance to care of older adults.

10:30 AM – 11:30 AM

CPT CODING: BEYOND BASIC E/M

Room:

CME/CE Credit: 1.0 Track: Research

Moderator: Peter A. Hollmann, MD, AGSF

Learning Objective: (1) discuss care management, advance care planning, collaborative behavioral health and other services, including what is new in 2022.

10:30 AM – 11:30 AM

CLINICAL SKILLS WORKSHOP: VERTIGO II

Room:

CME/CE Credit: 1.0 Track: Clinical Practice

Ticketed session. No additional fee.

Faculty: Anthony G. Arslan, DO; Mithil V. Choksey, MD; Marina L. Blagodatny, MD, CMD

Learning Objectives: (1) review the prevalence and impact of BPV; (2) perform a Dix Halpike and a lateral roll; and (3) perform canalith repositioning maneuvers to diagnose and resolve vertiginous symptoms.

10:30 AM – 11:30 AM

JUNIOR FACULTY RESEARCH CAREER DEVELOPMENT SPECIAL INTEREST GROUP MEETING

Room:

Chair: Gregory Ouellet, MD

The Junior Faculty Research Career Development Meeting is a great opportunity for junior faculty and research fellows to meet each other and to receive advice on career development from mid-career and senior faculty. Our speaker this year will be Alex Smith, MD, who received the 2021 Yoshikawa Award for Outstanding Scientific Achievement in Clinical Investigation. Dr. Smith will discuss his career journey and share advice about lessons learned along the way. This will be followed by roundtable discussions focusing on different stages of academic career development. Discussions will be facilitated by mid-career and senior research faculty and will cover a variety of topics, including applying for a job, navigating the mentor-mentee relationship, securing grant funding, and balancing research with other roles.

PLENARY SESSION

11:30 AM – 12:30 PM

RIDING ROLLER COASTERS: THE UPS AND DOWNS OF PUBLIC POLICY DURING A PANDEMIC

Room:

CME/CE Credit: 1.0

Track: Public Policy

This session presents some of the major AGS achievements over the past two years as well as our ongoing AGS work throughout the pandemic. Learning Objectives: (1) describe legislative and regulatory opportunities for influencing public policy; and (2) discuss how AGS incorporates new public policy priorities into its existing advocacy efforts and how the Society works in coalition.

12:30 PM – 4:00 PM

EXHIBIT HALL OPEN AND POSTERS AVAILABLE FOR VIEWING

Room: Exhibit Hall

12:30 PM – 1:30 PM

POSTER SESSION C

Room: Exhibit Hall

View the most current research in geriatrics. Authors will be available to discuss the presented findings and answer questions.

12:30 PM – 1:30 PM

EDUCATION PRODUCT SHOWCASE

Room: Exhibit Hall

The Education Product Showcase will provide attendees an opportunity to examine education products focusing on classroom teaching, small group activities, web-based modules, handouts and guides, "bedside" teaching tools, self-studies, and others.

12:30 PM – 1:30 PM

STUDENT SECTION

Room:

Track: Networking

Join the Student Community for networking and learning about the latest student news. Open to all trainees interested in attending.

CONCURRENT SESSIONS

1:30 PM – 2:30 PM

EVIDENCE-BASED PRESCRIBING AND DE-PRESCRIBING IN THE MILD, MODERATE & LATE-STAGES OF DEMENTIA

Room:

CME/CE Credit: 1.0

Track: Clinical Practice

Sponsored by the Clinical Practice and Models of Care Committee; Pharmacy Section; Nurses Section
Moderator: Zaldy S. Tan, MD, MPH, FACP

Given the differing needs and vulnerabilities of persons living with dementia in the mild, moderate and late stages, decisions regarding prescribing need to be individualized. Learning Objectives: (1) discuss the evidence behind, and clinical considerations for, prescribing FDA-approved medications for Alzheimer's disease and related dementias; (2) describe the use of the 5Ms framework in deciding what and when to deprescribe or whether to continue chronic disease management medications in each stage of dementia; (3) relate deprescribing to patients, caregivers and family members, as a positive part of

dementia care, as opposed to withdrawal of care; and (4) project targets for deprescribing for dementia patients, in accordance with expected disease progression over time.

Prescribing & Deprescribing in the Mild to Moderate Stages of Dementia

Zaldy S. Tan, MD, MPH, FACP

Prescribing & Deprescribing in the Moderate to Late Stages of Dementia

Demetra Antimisiaris, PharmD, BCGP, FASCP

Communicating about Deprescribing and Aligning Care with What Matters

Donna M. Fick, PhD, GCNS-BC, FGSA, FAAN

1:30 PM – 2:30 PM

TECHNOLOGICAL INNOVATIONS IN HEARING HEALTHCARE

Room:

CME/CE Credit: 1.0

Track: Clinical Practice

Sponsored by the Health Innovations - Economics and Technology Committee

Moderator: Margaret I. Wallhagen, PhD, GNP-BC, AGSF, FGSA, FAAN

Learning Objectives: (1) identify the impact of hearing loss on individuals and their families and the value of technology in promoting communication access; (2) discuss three new technological advances in hearing technology; (3) describe the purpose and implications of the legislation that has mandated that the FDA develop criteria for and regulations of over-the-counter hearing aids; and (4) develop strategies to incorporate hearing healthcare and available technologies to address communication barriers within their healthcare setting – acute, long-term, or primary care.

Overview of Hearing Loss as an Essential Public Health Concern

Margaret I. Wallhagen, PhD, GNP-BC, AGSF, FGSA, FAAN

Technology to Improve Healthcare Outcomes

Toni Iacolucci, MSW

1:30 PM – 2:30 PM

LIGHTNING SCIENCE: BRIEF PRESENTATIONS OF TOP-RATED ABSTRACTS

Room:

CME/CE:1.0

Track: Research

Sponsored by the Research Committee

Co-Moderators: Heather E. Whitson, MD, MHS; Camille P. Vaughan, MD, MS; Peter M. Abadir, MD

Communications Coach: John P. Beilenson, MA (Strategic Communications & Planning)

This fast-paced, interactive session will showcase some of the meeting's best new research and innovation. Top-rated abstracts submitted to AGS are selected for inclusion. Presenters will give the highlights of their research findings in five minutes or less and the audience will have an opportunity to discuss and ask questions. Learning Objectives: (1) describe at least one emerging concept or new scientific focus in aging research; (2) summarize the key findings of at least three projects with relevance to care of older adults; and (3) identify at least three AGS-affiliated individuals conducting exciting research in aging.

1:30 PM – 2:30 PM

LEADERSHIP CURRICULUM

Room:

CME/CE Credit: 1.0

Track: Professional Development

Description coming soon.

1:30 PM – 2:30 PM

CLINICIAN-SCIENTISTS TRANSDISCIPLINARY AGING RESEARCH (CLIN-STAR) PAPER SESSION

Room:

CME/CE Credit: 1.0

Track: Research

Sponsored by the Research Committee

Moderator: TBD

This session will present the latest peer-reviewed geriatrics research with questions and answers to follow. Learning Objectives: (1) discuss new and original geriatrics research; (2) describe an emerging concept or new scientific focus in aging research; and (3) summarize the key findings of projects with relevance to care of older adults.

1:30 PM – 2:30 PM

TEACHERS NETWORKING SECTION MEETING

Room:

Track: Networking

Chair: Megan E. Young, MD

Come and join your fellow geriatrics clinician educators to discuss potential collaborative projects as well as proposals for next year's annual meeting.

1:30 PM – 3:00 PM

WRITING AND REVIEWING FOR THE JOURNAL OF THE AMERICAN GERIATRICS SOCIETY (JAGS)

Room:

CME/CE Credit: 1.5

Track: Research

Co-Moderators: Ellen F. Binder, MD & Alexander K. Smith, MD, MS, MPH

This workshop is intended for persons who want to submit to, and/or review research articles for the Journal of the American Geriatrics Society (JAGS), including the JAGS Junior Reviewers. Participants will work in small groups, with facilitation by JAGS editorial board members, to review an article on site, using the JAGS review checklist, discuss the findings, and present their conclusions. Prior to the workshop, participants will be expected to have reviewed an online webinar that describes how a review for JAGS should be conducted and offers a working example of such a review. Learning Objectives: (1) use the JAGS checklist to review an article; (2) decide what recommendation to give about acceptance; and (3) review what steps are needed for improving the paper.

CONCURRENT SESSIONS

2:45 PM – 3:45 PM

UPDATE IN STABLE ISCHEMIC HEART DISEASE FOR CLINICIANS CARING FOR OLDER ADULTS

Room:

CME/CE Credit: 1.0

Track: Clinical Practice

Moderator: Ashok Krishnaswami, MD, MAS

This session will review current evidence-based testing, revascularization methods, and cardiovascular pharmacotherapy in older adult patients suspected of or with ischemic heart disease while considering underlying geriatric conditions and individual patient-centered outcomes. Learning Objectives: (1)

describe current testing modalities in patients presenting with SIHD; (2) discuss current revascularization modalities in patients presenting with SIHD; (3) review commonly used cardiovascular pharmacotherapeutics and the benefits/harms in older adults; and (4) incorporate geriatric conditions and patients' goals of care (i.e., desired outcome to treatment burden willing to be endured).

RECOGNIZING AND RESPONDING TO RACIAL MICROAGGRESSIONS IN OUR CLINICAL LEARNING ENVIRONMENTS: A SKILL-BUILDING WORKSHOP

Room:

CME/CE Credit: 1.0 Track: Professional Development

Sponsored by the Education Committee, Teachers Section, and the Achieving Health Equity Among Diverse Older Adults (AHEAD) Special Interest Group

Moderator: Anna Goroncy, MD, MEd

This is an educational workshop incorporating an interactive exercise to train participants to identify and respond to racial microaggressions in clinical settings. Learning Objectives: (1) define and identify microaggressions in healthcare interactions; (2) describe how microaggressions impact the lives of trainees and their clinical learning environments; (3) utilize strategies and skills to respond to and interrupt microaggressions; and (4) demonstrate skills for teaching about responding to microaggressions in their institution.

Microaggressions in the Clinical Learning Environments

2:45 PM – 3:45 PM

SEPSIS IN NURSING HOME RESIDENTS: RECOGNITION AND RESPONSE

Room:

CME/CE Credit: 1.0 Track: Clinical Practice

Sponsored by AMDA, the Society for Post-Acute and Long-Term Care

Moderator: Philip D. Sloane, MD, MPH

This session will address the presentation of sepsis in older adults, early recognition of sepsis in nursing home residents, and strategies to optimize outcomes in this setting. It also will discuss realistic expectations for managing sepsis based on the staff, training, and resources available in most nursing home settings. Learning Objectives: (1) describe the clinical presentation of sepsis in older nursing home

residents; (2) discuss initial assessment and principles of management in older adults with suspected sepsis including discussion on how to manage suspected sepsis in the context of antibiotic stewardship. In this objective we will also review common misconceptions related to antimicrobial stewardship and concerns related to rehospitalizations for severe infections; (3) discuss the benefits and limitations of currently available early recognition tools for sepsis in nursing homes and review currently available algorithms for diagnosis and management; and (4) recognize the risks and benefits of attempting to manage sepsis in nursing homes.

Impact of Sepsis in the Nursing Home

2:45 PM – 3:45 PM

TURNING CHALLENGE INTO OPPORTUNITY: EMBRACING TELEHEALTH AND TECHNOLOGY WITH LEARNERS IN GERIATRICS

Room:

CME/CE Credit: 1.0 Track: Education

Sponsored by the Teachers Section and the Education Committee

Moderator: Becky B. Powers, MD, AGSF

This workshop will provide educators with tips for teaching geriatrics specific telehealth skills to learners of multiple levels in multiple settings. Introductory didactic talks will be followed by jigsaw breakouts where attendees will apply the competencies and tips to various learners/settings, followed by facilitated discussion/presentations to discuss telehealth teaching. Learning Objectives: (1) describe successful precepting techniques for telehealth including incorporation of geriatric assessments into virtual visits; (2) describe models used to teach telehealth with older adults in outpatient, home care, and sub-acute settings; and (3) discuss interprofessional telehealth competencies for video telehealth with older adults and how a shared mental model of a successful telehealth visit can lead to more robust curriculum development.

2:45 PM – 3:45 PM

POSTER SESSION D: STUDENTS & RESIDENTS

Room: Exhibit Hall

Sponsored by the AGS Health in Aging Foundation

View the most current research in geriatrics. Authors will be available to discuss the presented findings and answer questions. Resident posters will be judged, with participation certificates and awards in several categories to be presented at the end of the poster session.

PLENARY SESSION

4:00 PM – 5:30 PM

CHRONIC PAIN MANAGEMENT

Room:

CME/CE Credit: 1.5

Track: Clinical Practice

Description coming soon.

6:00 PM – 7:00 PM

FUN STATIONS: TEST YOUR SKILLS AND WIN PRIZES!

Room:

Track: Networking

Trainees will be testing their knowledge via interactive quiz stations supervised by Geriatric Faculty from various Universities/Medical Centers. Students, residents and fellows will have the opportunity to network and interact with leaders in geriatric education. Questions will address important geriatric topics, such as aging physiology and its effects on disease, dermatological conditions, functional impairment and use of assistive devices. Come learn, have fun, and win prizes in a relaxed setting!

SPECIAL INTEREST GROUPS

6:00 PM - 7:00 PM

CARE TRANSITIONS

Room:

Track: Networking

Co-Chairs: Timothy W. Farrell, MD, AGSF; Ugochi Oluabunwa, MD; Jessica Wright, PA-C

This SIG is a forum for discussion, collaboration, and advocacy on care transitions issues. We will invite a guest speaker (TBD) to discuss a pressing care transitions issue, followed by a discussion of ideas for AGS symposia related to care transitions. The meeting will conclude with an open form for networking and discussion.

6:00 PM - 7:00 PM

CLINICIAN WELLNESS

Room:

Track: Networking

Co-Chairs: Magdalena Bednarczyk, MD & Jeensoo Chang, MD

Open to anyone with an interest in improving clinician well-being in order to address growing concerns related to clinician burnout. The goal is to provide information, tools and resources for decreasing burnout utilizing a holistic approach pertaining to professional, personal, financial and physical well-being, with the ultimate goal of helping clinicians rediscover meaningful, mission driven work within their organizations, and if necessary, provide tools to redefine success.

6:00 PM - 7:00 PM

ETHNOGERIATRICS

Room:

Track: Networking

Co-Chairs: Jeffrey D. Mariano, MD & Olga Olivares-Herrera, MD

The Ethnogeriatrics SIG is open to anyone with an interest in the relationship between aging, ethnicity, clinical practice and research. Participants will discover what projects are being developed by the SIG and Committee and offer suggestions for future AGS symposia. New ideas are welcome. The group's endeavors include recognizing challenges and developing practical solutions to providing appropriate care to different cultures and ethnicities in our diverse country. Members are encouraged to share and participate in the development of new educational materials focusing on key issues affecting ethnic minorities in the 21st century.

6:00 PM – 7:00 PM

FAMILY PHYSICIANS IN GERIATRICS

Room:

Track: Networking

Chair: Erik J. Lindbloom, MD, MSPH

This group addresses issues of concern to family physicians, family medicine fellows, and family medicine residents caring for older adults. We communicate with several of the other family medicine organizations, including the American Academy of Family Physicians and the Society of Teachers of Family Medicine.

6:00 PM - 7:00 PM

GERIATRICS CONSULTATIVE SERVICES

Room:

Track: Networking

Chair: Ella H. Bowman, MD, PhD, AGSF, FAAHPM

This meeting is open to anyone interested in geriatric medicine consultative services across all care settings. Participants will explore how geriatrics consultative services are provided in various clinical settings. Discussion topics vary from year to year and have included: how to best market ourselves in a climate that is starting to better understand value based metrics; how to focus our services on those who need us most given the dearth of board certified geriatricians across the country; how to collaborative efforts with other services in co-management and other arrangement; billing processes and concerns; and incorporating geriatrics interprofessional teaching within the consultative setting.

6:00 PM - 7:00 PM

GERIATRIC-SURGICAL CO-MANAGEMENT PROGRAMS

Room:

Track: Networking

Chair: Lynn McNicoll, MD

Interested in Co-Management? Thinking about starting it at your institution? Join us at the Geriatric-Surgical Co-Management SIG meeting to network with both experts and novices seeking to improve the management of elderly surgical patients. Come learn about the new AGS CoCare: Ortho Dissemination Project from the leaders in the field. It is also a great opportunity for programs to showcase their successes and challenges.

6:00 PM – 7:00 PM

HEALTH SYSTEMS LEADERSHIP (HSL) IN GERIATRICS

Room:

Co-Chairs: Anna Chodos, MD & Kellie L. Flood, MD

The mission of the HSL SIG is to explore principles of leadership, management, and systems transformation as it applies to the growing need for geriatrics in health systems and to present strategies to accomplish this. Our goals are to educate AGS members about these principles, highlight successful work in HSL, and present opportunities for training in HSL workshop leadership.

6:00 PM – 7:00 PM

INFORMATION TECHNOLOGY ISSUES

Room:

Track: Networking

Chair: Irene Hamrick, MD

The IT Issues Special Interest Group serves the AGS Membership by establishing a venue for members with an interest in information technology as it applies to geriatrics. An important focus of this SIG is to provide information, support and an organized center for coordinating information and resources to optimize the use of EHR in a senior health care environment. This includes ambulatory and long-term care senior health care settings and the transitions of care from one setting to another. Beyond health information exchange, this SIG also encompasses telemedicine and computerized assessment/biotechnology advancements including vital signs, laboratory testing, and imaging from remote locations. The current politics of health care reform, reimbursement and research as applicable to information technology are also areas of intense interest for this group, as are security, privacy, costs, expansion, educational opportunities and future development of IT as societal demands on its role in geriatric medicine increase.

6:00 PM – 7:00 PM

MAKE IT SAFE TO GROW OLD! THE POLICY NETWORKING GROUP

Room:

Track: Networking

Chair: Joanne Lynn, MD

Finally, policymakers and the press are beginning to take notice of the serious shortcomings in providing for older people in need of personal care and support, but we are far from public action. This SIG will share information among attendees as to the most important policy levers, how to take action, and what's happening in participants' localities. We'll deal with food and housing, and personal care -- as well as geriatric medicine and how we fit into the various Medicare/Medicaid "innovations."

6:00 PM – 7:00 PM

PATIENT PRIORITIES ALIGNED CARE FOR OLDER ADULTS WITH MULTIPLE CHRONIC CONDITIONS

Room:

Track: Networking

Chair: Mary E. Tinetti, MD

This Special Interest Group aims to identify alternatives to disease guideline-based care, specifically ways to implement patient priorities aligned decision making. Patient priorities aligned decision making calls upon patients and caregivers to articulate their health priorities; communicate those priorities to all team members; patients, caregivers and clinicians then together choose the healthcare best aligned with these health priorities.

6:00 PM – 7:00 PM

POST-ACUTE AND LONG-TERM CARE

Room:

Track: Networking

Co-Chairs: Verna R. Sellers, MD, MPH, CMD, AGSF; Laura Trice, MD, CMD, FACP, AGSF & Tsewang Ngodup, MD

This SIG focuses on issues related to Post-Acute and Long-Term Care Medicine. There is an on-going emphasis on staff education, quality measures and reducing avoidable re-admission in PALTC. Come prepared to share best practices and learn from your peers.

6:00 PM – 7:00 PM

WOUND PREVENTION AND MANAGEMENT

Room:

Track: Networking

Co-Chairs: **Veronica Nwagwu, MD & Sarwat Jabeen, MD, FAFP**

The Wound Prevention and Management SIG is an interdisciplinary group of healthcare professionals who strive to improve outcomes in skin and wound health in vulnerable older adults through supporting education, research, and quality improvement initiatives. The SIG serves as a platform to discuss educational initiatives at AGS, policy objectives so that we may get our patients "what they need to get

those wounds closed”, and updates on emerging research. We welcome all interested, regardless of experience.
