

SATURDAY, MAY 4

7:00 AM – 8:30 AM

MEDICAL SUBSPECIALTIES SECTION MEETING

Room: Portland Ballroom 254

Track: Networking

Co-Chairs: Lauren Ferrante, MD, MHS; Una Makris, MD, MSc

The Medical Subspecialties Section was developed in 2002 by the Association of Specialty Professors project "Integrating Geriatrics into the Specialties of Internal Medicine: Moving Forward from Awareness to Action," funded by The John A. Hartford Foundation and Atlantic Philanthropies, Inc.

Speakers: Kevin High, MD, MS; Supriya Mohile, MD, MS; Daniel Forman, MD; Kenneth Schmader, MD; Susan Ziemann, MD, PhD

This year's keynote session will feature a panel of leaders discussing how to navigate cultural challenges between the subspecialties and aging. Members of the AGS Medical Subspecialties Section will provide updates on activities within their disciplines, thereby showcasing opportunities for subspecialists to advance the geriatrics agenda within their specialty societies and their institutions. All medical and surgical subspecialists are encouraged to attend. Breakfast will be served.

CONCURRENT SESSIONS

7:30 AM – 8:30 AM

MANAGING INFECTIONS IN THE NURSING HOME – LESSONS FROM THE OPTIMISTIC DEMONSTRATION PROJECT

Room: Portland Ballroom 251 & 258

CME/CE Credit: 1.0 Track: Clinical Practice

Moderator: Kathleen T. Unroe, MD, MHA

The session will discuss algorithms developed by the OPTIMISTIC team to manage UTIs, skin and soft tissue infections and pneumonia in the nursing home. Learning Objectives: (1) utilize algorithms to appropriately manage pneumonia, urinary tract infections, and skin and soft tissue infections in the nursing home; (2) state the principles of antibiotic stewardship that pertain to common infections in the nursing home such as pneumonia, urinary tract infections, and skin and soft tissue infections; (3) incorporate goals of care as well as acuity of illness into management of pneumonia, urinary tract infections, and skin and soft tissue infections in the nursing home; and (4) interpret laboratory and imaging studies in combination with patient assessment to differentiate conditions requiring treatment with antibiotics from those that will not.

7:30 AM – 8:30 AM

ADVANCE CARE PLANNING: MORE THAN JUST BOX-CHECKING

Room: Portland Ballroom 253

CME/CE Credit: 1.0

Track: Ethnogeriatrics

Sponsored by the Quality and Performance Measurement and Ethnogeriatrics Committees

Moderator: VJ Periyakoil, MD

This session will identify barriers to Advance Care Planning for patient populations, and review take-home tools to overcome these barriers. Learning Objectives: (1) describe the importance of patients' possessing an Advanced Care Plan (Directive), how it works, and what are the current barriers to completion; (2) review available tools to improve patient adherence with Advance Care Planning; (3) identify specific challenges to Advance Care Planning; and (4) describe the role of chaplains and faith leaders in supporting implementation of advance care planning in the healthcare system.

Going beyond Checking the Box: Why Advanced Care Planning is Crucial to our Patients' Care and What Are Barriers to Completion?

Paul E. Tatum, MD, MSPH

Tools to Improve Advance Care Planning: the Serious Illness Care Program

Rachelle E. Bernacki, MD, MS

Tools to Improve Advance Care Planning: The PREPARE Program

Lori D. Klein, JD, MA

7:30 AM – 8:30 AM

GERIATRIC EDUCATION MATERIALS AND METHODS SWAP II

Room: Portland Ballroom 252

CME/CE Credit: 1.0

Track: Education

Developed by the Teachers Section and endorsed by the Education Committee

Moderator: Rachel Jantea, MD

This workshop presents a forum for teachers of geriatric education to share topics and materials of common interest, such as program development, curriculum, educational process and research in teaching and evaluation. Learning Objective: (1) describe and exchange geriatric education and teaching materials.

Barney 3.0: A Bicampus Interprofessional Hospital Discharge Simulation

Mariu Duggan, MD, MPH

7:30 AM – 8:30 AM

CODING AND REIMBURSEMENT: STUMP THE PROFESSOR

Room: C123

CME/CE Credit: 1.0

Track: Clinical Practice

Speaker: Peter A. Hollmann, MD

This open workshop will focus on answering your questions about CPT coding and billing, Medicare incentive and penalty programs (e.g. MIPS), reimbursement rules and related practice management issues. Attendees bring their questions for discussion. Learning Objectives: (1) discuss CPT/HCPCS coding and billing; and (2) describe how Medicare policy can affect your practice.

7:30 AM – 8:30 AM

THE HEART OF THE MATTER PAPER SESSION

Room: Portland Ballroom 255

CME/CE Credit: 1.0

Track: Research

Sponsored by the Research Committee

Moderator: George E. Taffet, MD

Come to this session to hear and discuss new research in Geriatric Cardiology. This session will present the latest peer-reviewed geriatrics research with questions and answers to follow. Learning Objectives: (1) discuss new and original geriatrics research; (2) describe an emerging concept or new scientific focus in aging research; and (3) summarize the key findings of projects with relevance to care of older adults.

P32 – Antithrombotic Prescribing after Acute Myocardial Infarction in Older Adults with Co-Morbid Atrial Fibrillation: The SILVER-AMI Study

7:30 AM – 8:30 AM

WOMEN IN GERIATRICS SECTION BREAKFAST MEETING

Room: B110-B111

Track: Networking

Chair: Lee A. Jennings, MD, MSHS; Rebecca S. Boxer, MD, MS & Lisa Miura, MD

This Section is intended for women of all disciplines working in geriatrics. The purpose is to provide a forum for women to discuss challenges and share ideas related to their personal and professional lives. Breakfast will be served.

SPECIAL INTEREST GROUPS

7:30 AM – 8:30 AM

MAKE IT SAFE TO GROW OLD! ACCOUNTABLE CARE COMMUNITIES FOR FRAIL ELDERLY

Room: B119

Track: Networking

Chair: Joanne Lynn, MD

This SIG aims to connect AGS folks who are frustrated with the pace of change and are looking to capitalize on the often small opportunities for big gains in creating a reliable, affordable set of arrangements that support frail and disabled older adults. We will share coffee and pastries, connect with one another, share insights and opportunities, and consider what strategies could effectively move politics

and social arrangements in time to accommodate the rising numbers of elders in need of excellent geriatric care, reliable personal care, and workable caregiving and financing.

7:30 AM – 8:30 AM

WOUND PREVENTION AND MANAGEMENT

Room: B112

Track: Networking

Chair: E. Foy White-Chu, MD, CWSP, AGSF

The Wound Prevention and Management SIG is an interdisciplinary group of healthcare professionals who strive to improve outcomes in skin and wound health in vulnerable older adults through supporting education, research, and quality improvement initiatives. The SIG serves as a platform to discuss educational initiatives at AGS, policy objectives so that we may get our patients “what they need to get those wounds closed!”, and updates budding research. We welcome all interested, regardless of experience.

PLENARY SESSION

8:45 AM – 10:15 AM

GERIATRICS LITERATURE UPDATE: 2019

Room: Hall B

CME/CE Credit: 1.5

Track: Clinical Practice

Speakers: Kenneth Covinsky, MD, MPH; Eric Widera, MD & Alexander Smith, MD, MS, MPH

The Geriatric Literature Update is always one of the most popular sessions at the annual meeting. The session will focus on the year's most important published papers. Discussion includes the significance of findings and application to patient care. Learning Objectives: (1) identify areas in clinical medicine where new strong evidence has been uncovered that should affect geriatric practice; (2) describe the results of a critical appraisal of this evidence; and (3) discuss clinical advances in caring for older adults from a review of approximately 30 peer-reviewed journals January-December, 2018.

CONCURRENT SESSIONS

10:30 AM – 11:30 AM

HIV IN OLDER ADULTS: WHAT GERIATRICS HEALTHCARE PROVIDERS NEED TO KNOW

Room: Portland Ballroom 251 & 258

CME/CE Credit: 1.0

Track: Clinical Practice

Moderator: Meredith L. Greene, MD

Half of all adults living with HIV in the US are age 50 and older. Learning Objectives: (1) discuss challenges facing older adults living with HIV including complications of long term HIV medications; (2) describe interactions between HIV drugs and those to treat age-related comorbidities; and (3) describe the role geriatrics health professionals can have in caring for the aging HIV population. HIV prevention in older adults will also be discussed.

Ageing with HIV: Obstacles and Roadmaps

Julian Falutz, MD, CM, FRCP(C)

Panel Discussion

10:30 AM – 11:30 AM

USE OF NEUROIMAGING IN COGNITIVE IMPAIRMENT

Room: Portland Ballroom 253

CME/CE Credit: 1.0

Track: Clinical Practice

Sponsored by the American Academy of Neurology

Speakers: Alexander P. Auchus, MD & Juebin Huang, MD, PhD

This case-based symposium will illustrate the utility of neuroimaging in the evaluation of patients with cognitive impairment. Learning Objectives: (1) describe neuroimaging tests available to the geriatrics healthcare provider; (2) discuss the application of these tests in evaluating patients; (3) review when each test might be helpful; and (4) appreciate the interpretations of neuroimaging results.

10:30 AM – 11:30 AM

WORKPLACE LIFE SKILLS: GETTING TO YES AND GETTING TO K(NO)W

Room: Portland Ballroom 252

CME/CE Credit: 1.0

Track: Education

Moderator: Kevin T. Foley, MD, AGSF

Developed by the Teachers Section and supported by the Education Committee

Negotiation is a common and daily activity for most healthcare professionals and skill building in negotiating is important for improving collaboration and problem solving in the workplace. Learning Objectives: (1) describe benefits of negotiations between individuals acting either for themselves or as representatives of organized groups of individuals; (2) describe the elements of the basic needs model of negotiation including negotiation and strategic skills, diagnostic skills, and negotiation planning; and (3) apply the basic needs model in a negotiation to identify personal needs in the negotiation, establish the best alternative to a negotiated agreement, and identify strategies and tactics for the negotiation.

You Can't Always Get What You Want (Unless You Try Sometime)

- *I Meant No - But Didn't Say So*
- *I Said No - Now Time to Go*

Facilitators: Timothy W. Farrell, MD, AGSF; Michi Yukawa, MD, MPH; Theresa A. Allison, MD, PhD; Emily R. Hajjar, PharmD; Steve R. Barczi, MD; Rebecca Starr, MD, AGSF; Catherine C. Lindsay, MS; Kevin T. Foley, MD, AGSF

10:30 AM – 11:30 AM

INCORPORATING CAREGIVERS INTO RESEARCH, INNOVATIVE PRACTICE, AND POLICY

Room: C123

CME/CE Credit: 1.0

Track: Research

Moderator: Catherine A. Riffin, PhD

Sponsored by the Junior Faculty Research Career Development Special Interest Group

The purpose of this symposium is to provide attendees with practical knowledge and information regarding emerging developments in the field of caregiving. Learning Objectives: (1) discuss the importance, challenges, and successful implementation of incorporating family caregivers in research; (2) describe how to support caregivers of older adults with dementia through an innovative and effective intervention that complements standard clinical practice; and (3) review the current state of family caregiving policy in the United States and how it impacts current clinical practice.

TO PRESCRIBE OR DEPRESCRIBE PAPER SESSION

Room: Portland Ballroom 255

CME/CE Credit: 1.0 Track: Research

Sponsored by the Research Committee

Moderator: Camille P. Vaughan, MD, MS

Come to hear research on new approaches to optimize medication use for older patients. This session will present the latest peer-reviewed geriatrics research with questions and answers to follow. Learning Objectives: (1) discuss new and original geriatrics research; (2) describe an emerging concept or new scientific focus in aging research; and (3) summarize the key findings of projects with relevance to care of older adults.

Tatiana Requiño, BS

CONCURRENT SESSIONS

11:45 AM – 12:45 PM

DIABETES IN OLDER ADULTS

Room: Portland Ballroom 251 & 258

CME/CE Credit: 1.0 Track: Clinical Practice

Moderators: Sei J. Lee, MD, MAS & Pei Chen, MD

Learning Objectives: (1) compare and contrast the advantages and disadvantages of different glucose lowering medications; (2) formulate a framework for when and how to prescribe and de-prescribe glucose lowering medications; and (3) develop strategies to address common glucose management issues in patients who are in the nursing homes or who are at the end of life.

Glycemic Treatment in the Nursing Home

11:45 AM – 12:45 PM

WELLNESS: MEETING BABY BOOMERS WHERE THEY ARE WHILE ADVANCING GERIATRICS

Room: Portland Ballroom 253

CME/CE Credit: 1.0 Track: Clinical Practice

Sponsored by the Healthy Aging Special Interest Group

Moderator: Louise Aronson, MD, MFA

By the end of this session, participants will better understand Integrative Medicine and how it can be used in their geriatrics practice and teaching to improve the health and well-being of older adults. Learning Objectives: (1) define Integrative Medicine and discuss its potential contributions to optimizing the health, well-being, and clinical care of older patients; (2) discuss the evidence for nutrition, mind-body modalities, and exercise in the care of healthy and frail older adults; (3) consider how adding integrative modalities to your clinical tool bag can improve the health and well-being of your patients; and (4) list resources for learning more about integrative geriatrics and optimizing aging.

INITIATIVES FOR IMPROVING SURGICAL CARE FOR ALL OLDER ADULTS

Room: Portland Ballroom 252

CME/CE Credit: 1.0 Track: Models of Care

Sponsored by the Geriatrics for Specialists Initiative

Moderator: Thomas N. Robinson, MD

The Coalition for Quality in Geriatric Surgery is a national initiative to improve the peri-operative care of all older adults planning for surgery. Learning Objectives: (1) discuss cognitive assessment prior to an operation, to understand delirium prevention and management after an operation, and to understand how to implement best practices of preoperative cognitive assessment and postoperative delirium prevention/management within a hospital system; (2) review assessment of function prior to an operation, to understand how to prevent functional decline after an operation, and to understand how to implement best practices of preoperative function assessment and postoperative function preservation within a hospital system; (3) describe assessment of goals of care prior to an operation, to understand how to reconsider goals of care after an operation, and to understand how to implement best practices of preoperative establishment of goals of care and postoperative reconsideration of goals of care within a hospital system; and (4) discuss assessment of nutrition prior to an operation, to understand how to prevent nutritional decline after an operation, and to understand how to implement best practices of preoperative nutrition assessment and prevent postoperative nutritional decline within a hospital system.

LEADERSHIP CURRICULUM: LEADERSHIP VS. MANAGEMENT

Room: C123

CME/CE Credit: 1.5 Track: Professional Development

Speakers: Michael R. Wasserman, MD, CMD; Cari R. Levy, MD & Victoria L. Walker, MD, CMD, FAAFP
Leadership and Management are not mutually exclusive; most of us will need to have both of these skills to be successful and it requires discernment to recognize which is appropriate in the situation. Learning Objectives: (1) define and explore framework/evidence based practices for leadership and management; (2) review examples of lapses in effective leadership and management (direct care and organizational); and (3) cite examples of effective leadership and management by physicians (direct care and organizational).

CONCURRENT SESSIONS

1:00 PM – 2:00 PM

PHARMACOTHERAPY UPDATE: 2019

Room: Portland Ballroom 251 & 258

CME/CE Credit: 1.0 Track: Clinical Practice

Developed by the Pharmacists Section

Moderator: David P. Elliott, PharmD, BCGP

The goal of this session is for attendees to become familiar with pharmacotherapy advances that were made in the past year in addition to new safety updates for older medications. Learning Objectives: (1) communicate the indication for use, mechanism of action, pharmacokinetics, dosing, safety, and drug interactions for newly approved medications; (2) compare potential advantages and disadvantages of incorporating new medications into clinical practice; (3) evaluate new drug safety updates, including new doses and indications, used in the care of older adults; and (4) discuss the ramifications of new safety data regarding drugs approved for use in the US with patients.

1:00 PM – 2:00 PM

THE DILEMMA OF COLLEAGUES WITH COGNITIVE IMPAIRMENT: ETHICAL AND PRACTICAL CONSIDERATIONS

Room: Portland Ballroom 253

CME/CE Credit: 1.0 Track: Ethics

Sponsored by the Ethics Committee

Moderator: Elizabeth K. Vig, MD, MPH

Many working in health care have encountered a colleague who appears to have cognitive impairment, but continues to work. When faced with this situation, health care professionals may not know what to do, including identifying which interventions are ethically justifiable. Learning Objectives: (1) identify three normal changes to cognition with aging that may impact a clinician's ability to work; (2) describe the pros/cons of mandatory aged-based cognitive screening; and (3) explain resources available to assess and help clinicians with cognitive impairment who continue to work.

Normative Cognitive Changes that Occur with Aging
