CPT CODING: BASIC PRINCIPLES AND PRACTICE

- **Date:** Thursday, May 13, 2021
- **Time:** 10:00am - 11:00am
- **Track:** Clinical Practice
- **CME/CE:** 1.0

Speaker: Peter A. Hollmann, MD

This session will help the attendee become aware of coding that is especially relevant to geriatrics health care professionals. Specific topics that will be addressed include: E/M (office and facility visit codes and Medicare Preventive Medicine codes) and overview to coding and billing for the geriatrics professional. Learning Objectives: (1) describe basic coding principles; (2) discuss key Medicare payment rules; and (3) interpret how to relate these to practice management.

Symposia

DECISION MAKING FOR OLDER ADULTS WITH MULTIPLE CHRONIC CONDITIONS

- **Date:** Thursday, May 13, 2021
- **Time:** 10:00am - 11:00am
- **Track:** Clinical Practice
- **CME/CE:** 1.0

Sponsored by the Quality and Performance Measurement Committee and the Clinical Practice and Models of Care Committee

Moderator: Heather E. Whitson, MD, MHS

The AGS Guiding Principles for the Care of Older Adults with Multimorbidity have been translated into a framework of Actions and accompanying Action Steps. This session stems from the framework and will cover recent developments in decision-making for older adults with multiple chronic conditions (MCCs). Learning Objectives: (1) identify and communicate patients' health priorities; (2) develop strategies for stopping, starting, or continuing care based on health priorities, potential benefit vs harm and burden, and health trajectory; and (3) provide a framework for aligning decisions and care with patients, caregivers, and other clinicians with patients' health priorities and health trajectory.

EPIDEMIOLOGY PAPER SESSION

- **Date:** Thursday, May 13, 2021
- **Time:** 10:00am - 11:00am
- **Track:** Research
- **CME/CE:** 1.0

Sponsored by the Research Committee

Moderators: Shelly L. Gray, PharmD, MS & Susan Hardy, MD

This session will present the latest peer-reviewed geriatrics research with questions and answers to follow. Learning Objectives: (1) discuss new and original geriatrics research; (2) describe an emerging concept or new scientific focus in aging research; and (3) summarize the key findings of projects with relevance to care of older adults.

FELLOWS-IN-TRAINING SECTION

- **Date:** Thursday, May 13, 2021
- **Time:** 10:00am - 11:00am
- **Track:** Networking
- **CME/CE:** 0.0

Chair: Chitra Hamilton, MD

Please join other fellows, faculty members, and leaders in geriatrics at the annual Fellows-in-Training meeting. This event is a unique opportunity to share and discuss ideas, past experiences, and future career plans while networking with colleagues and mentors from across the country.

Workshop

GERIATRIC EDUCATION MATERIALS AND METHODS SWAP

- **Date:** Thursday, May 13, 2021
- **Time:** 10:00am - 11:00am
- **Track:** Education
- **CME/CE:** 1.0

Sponsored by the Teachers Section and the Education Committee

Moderator: Rachel Miller, MD

This workshop presents a forum for teachers of geriatric education to share topics and materials of common interest, such as program development, curriculum, educational process and research in teaching and evaluation. Learning Objective: (1) describe and exchange geriatric education and teaching materials.

HOME-BASED ACUTE CARE: THE NEW ACUTE CARE ALTERNATIVE FOR THE GERIATRIC PATIENT

- **Date:** Thursday, May 13, 2021
- **Time:** 10:00am - 11:00am
- **Track:** Models of Care
- **CME/CE:** 1.0

Moderator: Albert Siu, MD

Not infrequently, as healthcare professionals, we find ourselves asking the question “did this person really need to be admitted.” Often, we are finding the answer to be “no”. To explore other options when caring for patients, especially our older, more frail adults, we present an alternative model of care: home-based acute care. Learning Objectives: (1) identify components of value-based care models and understand how these models lead to improved quality of care and better concordance with goals of care for older adults; (2) describe home-based acute care models, where they are applicable and how they may benefit older adults’ healthcare needs; and (3) describe practical approaches to implementation of home-based acute care models.

IMPLEMENTATION SCIENCE: MOVING MODELS OF CARE FOR OLDER PATIENTS FROM RESEARCH EVIDENCE TO REAL

- **Date:** Thursday, May 13, 2021
- **Time:** 10:00am - 11:00am
- **Track:** Research
- **CME/CE:** 1.0

Developed by the Research Committee

Moderator: John A. Batsis, MD, AGSF

Implementation of evidence-based interventions takes an average of 17 years to convert 14% of research findings into routine daily practice. Implementation science is the scientific study of methods to promote the systematic uptake of research findings and other evidence-based practices into routine practice and, hence, to improve the quality and effectiveness of health services. Learning Objectives: (1) describe implementation science and its relevance in the context of current health policies and agenda as it pertains to older adults; (2) describe research designs that are unique to the field of implementation science; (3) review the key characteristics of designing and evaluating a hybrid type 1 effectiveness-implementation study in the acute care setting; and (4) discuss the key characteristics of designing and evaluating a hybrid type 3 effectiveness-implementation study in the community care setting.

NON-PHARMACOLOGIC PAIN MANAGEMENT STRATEGIES: USE OF SUPPLEMENTS, CANNABIDIOL (CBD) AND MIND-BODY THERAPIES

- **Date:** Thursday, May 13, 2021
- **Time:** 10:00am - 11:00am
- **Track:** Clinical Practice
- **CME/CE:** 1.0

Sponsored by the Public Education Committee, Healthy Aging Special Interest Group, Pharmacy Section, Polypharmacy Special Interest Group

Moderator: Jeannie K. Lee, PharmD, BCPS, BCGP, FASHP

This interprofessional symposium will present three unique non-pharmacologic areas of pain management (supplements, CBD, and integrative therapies) and explore culturally relevant communication strategies for patient interview and education. Learning

Objectives: (1) recognize common supplements and herbals used for pain management, and be able to assess for adverse effects and drug-disease and drug-drug interactions; (2) describe the data behind the current CBD craze, and be able to clearly advise older patients about risks and benefits in pain management; (3) utilize integrative approaches for pain management, including mindfulness and yoga, and know when to recommend these in clinical practice; and (4) develop neutral communication techniques when interviewing about the use of CIM in pain, and providing culturally-competent advice on risks and benefits to older patients.

NURSES SECTION

- **Date:** Thursday, May 13, 2021
- **Time:** 10:00am - 11:00am
- **Track:** Networking
- **CME/CE:** 0.0

Chair: Margaret I. Wallhagen, PhD, GNP-BC, AGSF

Join other nurses, nursing students, and AGS leaders at this special session. The Section meeting will also include time for networking and presentations by AGS nursing leaders.

Section

PHARMACISTS SECTION

- **Date:** Thursday, May 13, 2021
- **Time:** 10:00am - 11:00am
- **Track:** Networking
- **CME/CE:** 0.0

Chair: Jeannie Lee, PharmD & Carla J. Bouwmeester, PharmD, MS, BCPS, BCGP

The Pharmacists Section meeting is an opportunity for pharmacist members of AGS to network, share about their AGS presentations, and discuss ways to collaborate. A conversation of leadership opportunities within AGS will also be a priority for the meeting.

Section

SOCIAL WORKERS SECTION

- **Date:** Thursday, May 13, 2021
- **Time:** 10:00am - 11:00am
- **Track:** Networking
- **CME/CE:** 0.0

Chair: Dawn E. Butler, JD, MSW

Please join other social workers and social work students at the Social Workers Section session. This session will provide an opportunity to meet, network, and collaborate with other social workers in the field of aging. The session will also include opportunities to discuss experiences and projects related to collaborations between health care systems and community-based organizations.

Plenary Symposia

PLENARY PAPER SESSION

- **Date:** Thursday, May 13, 2021

- **Time:** 11:15am - 12:00pm
- **Track:** Research
- **CME/CE:** .75

Sponsored by the Research Committee

Moderator: Peter A. Hollmann, MD

This session will present the top three research abstracts based on average score, quality, originality and methodology of research. Learning Objectives: (1) describe emerging concepts or a new scientific focus in aging research; and (2) summarize the key findings of research with relevance to care of older adults.

COVID-19: LESSONS FROM A PANDEMIC

- **Date:** Thursday, May 13, 2021
- **Time:** 12:00pm - 1:00pm
- **Track:** Clinical Practice
- **CME/CE:** 1.0

Moderator: Judith L. Beizer, PharmD, BCGP, FASCP, AGSF

Learning Objectives: (1) define structural inequities, explain the drivers of it, and discuss solutions to dismantle structural inequities; (2) describe the development of COVID-19 vaccine authorization and guidance in the US; and (3) discuss how innovative approaches in overcoming barriers to COVID vaccine distribution among isolated older adults can inform preparations for future public health emergencies.

COMPLEX SURGICAL DECISION-MAKING IN OLDER ADULTS

- **Date:** Thursday, May 13, 2021
- **Time:** 1:15pm - 2:15pm
- **Track:** Clinical Practice
- **CME/CE:** 1.0

Sponsored by the Geriatric-Surgical Co-Management Programs Special Interest Group, the Ethics Committee, and the Clinical Practice and Models of Care Committee

Moderator: Sarah A. Wingfield, MD

This session will provide a roadmap for surgical decision making for health care providers caring for older adults in the perioperative period. Learning Objectives: (1) recognize the importance of performing a preoperative cognitive assessment and articulate the impact this assessment has on determining a patient's capacity to consent for surgery; (2) discuss the essential components of geriatric perioperative risk assessment; (3) elicit patient goals and preferences surrounding operative and non-operative treatment options; and (4) use the BC/WC framework as a tool to facilitate shared decision making.

GENITOURINARY HEALTH FOR OLDER WOMEN

- **Date:** Thursday, May 13, 2021
- **Time:** 1:15pm - 2:15pm
- **Track:** Clinical Practice
- **CME/CE:** 1.0

Moderator: Christine K. Bradway, PhD, CRNP, FAAN, AGSF

Benign urologic conditions (BUCs)—including urinary tract infections, urologic chronic pelvic pain syndrome, conditions associated with lower urinary tract symptoms (e.g., urinary incontinence, frequency, urgency, nocturia), and urinary stone disease (USD)—are common. Learning Objectives: (1) discuss the role that BUCs may play in development of obesity, diabetes, depression, and hypertension; and (2) explore the relationship between toileting behaviors and UI in women with implications for bladder health.

HOW TO IMPLEMENT PATIENT PRIORITIES ALIGNED CARE IN YOUR PRACTICE

- **Date:** Thursday, May 13, 2021
- **Time:** 1:15pm - 2:15pm
- **Track:** Clinical Practice
- **CME/CE:** 1.0

Moderator: Mary E. Tinetti, MD

Patient Priorities Care (PPC) aims to align the healthcare of older adults with multiple conditions with their health priorities (i.e. specific health outcomes goals and care preferences) and preparing clinicians to translate these priorities into clinical decisions. Learning Objectives: (1) describe the steps involved in identifying patients' health priorities (health outcome goals and healthcare preferences); (2) review the steps and strategies that can be used in patient priorities aligned decision-making; and (3) gain preliminary hands-on experience with what the Patient Priorities Care approach entails.

PHARMACOTHERAPY UPDATE: 2021

- **Date:** Thursday, May 13, 2021
- **Time:** 1:15pm - 2:15pm
- **Track:** Clinical Practice
- **CME/CE:** 1.0

Developed by the Pharmacists Section and the Polypharmacy Special Interest Group

Moderator: Jeannie K. Lee, PharmD, BCPS, BCGP, FASHP

The purpose of this symposium is to educate the audience and summarize the changes over the past year in pharmacotherapy. The speakers will examine information regarding newly approved medications, as well as dietary and herbal supplements.

Learning Objectives: (1) communicate the indication for use, mechanism of action, pharmacokinetics, dosing, safety, and drug interactions for newly approved medications; (2) compare potential advantages and disadvantages of incorporating new medications into clinical practice; (3) explain the potential uses, mechanism of action, dosing, safety, and drug/supplement interactions for select dietary and herbal supplements; and (4) evaluate the potential risks and benefits of dietary supplement use in older adults.

THE ABCS OF NIA GRANTSMANSHIP - FOR EARLY CAREER RESEARCHERS AND THEIR MENTORS

- **Date:** Thursday, May 13, 2021
- **Time:** 1:15pm - 2:15pm
- **Track:** Research
- **CME/CE:** 1.0

Sponsored by the National Institute on Aging for new and early stage researchers in cooperation with the AGS Research Committee

Moderator: Marie A. Bernard, MD

The symposium is intended for investigators with current research training or career development awards, including "T," "F," or "K" funding, or GEMSSTARs. It is also intended for individuals who are interested in learning about these types of grant opportunities. The session targets the needs of new and early career investigators by providing an overview of NIA's extramural research programs and initiatives, including a focus on emerging opportunities across NIA for Alzheimer's and related dementias

research. Funding and training opportunities, the Center for Scientific Review grants review process, and experiences of an early career researcher will also be featured. Learning Objectives: (1) describe the NIA mission and extramural divisions supporting early stage investigators in clinical, biomedical, neuroscience, and behavioral and social research; (2) discuss recent policy changes which affect the funding environment; and (3) identify NIA's resources for research training and grant application.

AUGMENTATION THERAPIES FOR DEPRESSION IN OLDER PEOPLE: SCIENCE AND PRACTICE

- **Date:**Thursday, May 13, 2021
- **Time:**3:45pm - 4:45pm
- **Track:**Clinical Practice
- **CME/CE:**1.0

Moderator: Soo Borson, MD

This session will review the rationale for replacing or augmenting antidepressant pharmacotherapy with non-pharmacological approaches as well as supplemental or alternative medications. We summarize the evidence supporting existing options, suggest how they can be used in clinical practice, and describe health system design elements that foster comprehensive depression care for older people. Learning Objectives: (1) name at least 2 types of evidence-based pharmacological interventions to augment antidepressant medication; (2) describe at least 2 types of evidence-based non-pharmacological interventions to augment or replace antidepressant medication; and (3) identify 2 health system design elements that support comprehensive depression care for older adults.

DO MORE, DO NOTHING, OR DO LESS: DECISION-MAKING ABOUT BLOOD PRESSURE CONTROL IN OLDER PATIENTS

- **Date:** Thursday, May 13, 2021
- **Time:** 3:45pm - 4:45pm
- **Track:** Clinical Practice
- **CME/CE:** 1.0

Sponsored by the Research and the Clinical Practice and Models of Care Committees

Moderator: Mark A. Supiano, MD, AGSF

Despite the profound benefits among older participants in from the Systolic Blood Pressure Intervention Trial (SPRINT), and the new recommended treatment threshold of <130 mm Hg, this more intensive treatment target has not been universally accepted. The goal of this symposium is to discuss some of these potential explanations with a particular focus on the question of generalizability of the SPRINT results to the geriatric patient populations that many AGS members care for. Learning Objectives: (1) discuss how the characteristics of SPRINT participants pertain to the population of older adults, and how the cardiovascular and cognitive benefits in SPRINT translate to the population level; (2) define the older adults with hypertension with a “high degree burden of comorbidity and limited life expectancy” for whom “clinical judgment, patient preference, and a team-based approach to assess risk/benefit is reasonable for decisions regarding intensity of BP lowering and choice of antihypertensive drugs” (ACC/AHA 2017 Hypertension Guideline) should be applied; and (3) review how advanced age (> 80 years), gait speed, frailty status, polypharmacy, and the presence of multiple chronic conditions influences SPRINT treatment outcomes.

The Presidential Poster Session features posters that received the highest rankings from abstract reviewers. Posters will be judged and one poster in each category will be chosen to receive a “Best Poster” award.

Special Interest Group

ACHIEVING HEALTH EQUITY AMONG DIVERSE OLDER ADULTS (AHEAD)

- **Date:** Thursday, May 13, 2021
- **Time:** 6:00pm - 7:00pm
- **Track:** Networking

Co-Chairs: Jane Jih, MD, MPH, MAS & Benjamin Han, MD, MPH

The Achieving Health Equity Among Diverse Older Adults (AHEAD) Special Interest Group which will meet for the first time at the 2021 Virtual AGS Annual Meeting. The mission of this new SIG is to bring together AGS members with an interest in promoting health equity and reducing health and healthcare disparities among diverse older adults in order to 1) promote health equity initiatives at AGS; 2) develop programming and educational materials for AGS members; 3) create interdisciplinary relationships and mentorship with colleagues with an interest in health equity initiatives; and 4) cultivate collaborations in health equity-focused research and quality improvement initiatives among older adults.

Special Interest Group

GEROSCIENCE

- **Date:** Thursday, May 13, 2021
- **Time:** 6:00pm - 7:00pm
- **Track:** Networking

Chair: George A. Kuchel, MD

The Geroscience SIG brings together AGS members from varied backgrounds who all share a common interest in efforts to leverage our understanding of basic aging processes towards the discovery, validation and implementation of intervention strategies designed to promote health, function and independence in late life.

Special Interest Group

HEALTHCARE FOR LOW-INCOME SENIORS

- **Date:**Thursday, May 13, 2021
- **Time:**6:00pm - 7:00pm
- **Track:**Networking

Chair: Steven R. Counsell, MD, AGSF

The mission of the Health Care for Low-Income Seniors AGS Special Interest Group is to improve the quality and outcomes of health care and maximize independence among low-income seniors by bringing together geriatrics professionals dedicated to the care of the poor, disseminating practical solutions and innovative geriatrics team care models, and advocating for public policy change to better address the needs of this population. The Healthcare for Low-Income Seniors SIG is open to all AGS meeting participants.

Special Interest Group

INTERPROFESSIONAL EDUCATION AND PRACTICE IN GERIATRICS

- **Date:**Thursday, May 13, 2021
- **Time:**6:00pm - 7:00pm
- **Track:**Networking

Co-Chairs: Josette A. Rivera, MD & Todd C. James, MD

The Interprofessional Education and Practice (IPE/P) Special Interest Group welcomes all AGS members to explore how broad health professional interest in collaboration is changing health education and practice. Interprofessional education refers to when “two or more professionals learn about, from and with each other to enable effective collaboration and improve health outcomes” (WHO, 2010). Please join us to explore opportunities to advance geriatric care and collaborative practice with new educational initiatives, curricula, and models of care.

JUNIOR FACULTY RESEARCH CAREER DEVELOPMENT SPECIAL INTEREST GROUP BUSINESS MEETING

- **Date:**Thursday, May 13, 2021
- **Time:**6:00pm - 7:00pm
- **Track:**Networking

Chair: Brienne Miner, MD, MHS

The Junior Faculty Research Career Development Special Interest Group is for junior faculty members and research fellows pursuing a career in aging-related research. At this meeting, we will elect our leadership for the coming year and discuss ideas for a symposium submission. This SIG is a great way to network with other early career researchers and become involved with AGS.

THE HOSPITAL ELDER LIFE PROGRAM (HELP) / DELIRIUM PREVENTION

- **Date:**Thursday, May 13, 2021
- **Time:**6:00pm - 7:00pm
- **Track:**Networking

Co-Chairs: Stephanie Baker, MHA, CPHQ& Sharon K. Inouye, MD, MPH

The mission of our Hospital Elder Life Program (HELP) / Delirium Prevention is to allow all current and potentially interested HELP sites to come together to hear the latest updates about HELP and delirium prevention, as well as network and discuss successes and challenges anywhere in the planning or implementation process. The Hospital Elder Life Program (HELP) is an innovative model of hospital care designed to prevent delirium and functional decline and to improve overall quality of hospital care for older persons. The program has been demonstrated to be both effective and cost-effective, with the potential for large cost savings.

VETERANS HEALTH ADMINISTRATION

- **Date:**Thursday, May 13, 2021
- **Time:**6:00pm - 7:00pm
- **Track:**Networking

Chair: Marianne Shaughnessy, PhD, CRNP

This session is intended for employees of the US Department of Veterans Affairs who are attending the conference. Representatives from the VA Offices of Geriatrics and Extended Care Policy and Services will be present to provide updates on VA activities and plans; and to engage in discussion with VA staff present regarding matters of shared concern. Interested non-VA persons are welcome to attend but are asked to refrain from participating in open discussion.
