## EXHIBITS PROGRAM

### AGS MARKETPLACE

Drop by the AGS Marketplace Booth, to find out about new services and products.

### AGS Store

Preview and purchase AGS publications including: the 2025 edition of *Geriatrics at Your Fingertips®*, the 12<sup>th</sup> edition of the *Geriatrics Review Syllabus (GRS)*, and the 8<sup>th</sup> edition of the *Geriatric Nursing Review Syllabus (GNRS)*.

Take a personal tour of GeriatricsCareOnline, where you can build your own library of AGS digital products based on your needs. Make the most of this valuable content, using the online interactive tools available through the site.

### AGS CoCare®

AGS CoCare® is a suite of programs helping embed geriatrics expertise in broader care for older adults. Our programs provide institutions with a variety of resources to help support the implementation of the AGS CoCare® program models, through access to our tools, resources, training, and technical assistance. Stop by and learn about AGS CoCare®: Ortho and AGS CoCare®: HELP.

- AGS CoCare®: HELP, formerly known as the Hospital Elder Life Program, is a well-studied, effective, and innovative model of hospital care designed to prevent both delirium and functional decline.
- AGS CoCare®: Ortho is a Geriatrics-Orthopedics Co-Management model in which geriatrics professionals, or specially trained geriatrics co-managers (e.g., hospitalists) work with orthopedic surgeons to coordinate and improve the perioperative care of older adults with hip fractures.

### Membership

AGS membership staff welcomes the opportunity to help you with your member needs and answer any questions you may have regarding membership and benefits, as well as provide you with up-to-date news on AGS initiatives.

Come preview and learn more about Phairify's Online Physician Value Exchange, an exclusive AGS/ADGAP membership benefit. Phairify's geriatrics -specific professional practice information and career management platform provides members who participate in AGS/ADGAP benchmarking Survey

with insight into their value and worth backed by geriatrics-specific compensation and productivity data. Once members complete the survey, they will have immediate and unlimited access to aggregated market intelligence (i.e., benchmarking data), and anonymously be able to compare with their peers and have access to specialty-specific data that will help them to define their own career paths.

### **HealthinAging.org**

Created by the AGS Health in Aging Foundation, HealthinAging.org provides consumers and caregivers with up-to-date information on health and aging. Come see the newly redesigned HealthinAging.org website and what makes it a great resource for older adults and their caregivers.

### **State Affiliates**

The AGS has a network of over two dozen state affiliates across the country working to improve the quality of geriatrics education. Stop by and learn more about the affiliate in your state or learn how you can help get one started.

### **Aquifer Geriatrics**

Aquifer Geriatrics — the AGS national online curriculum for medical and health professions students - is the ideal course for use within a geriatrics, internal medicine, or family medicine clerkship. Come by to learn more about our course offerings.

Empathia AI: Streamlining Documentation and Billing for Geriatric Care

Empathia AI helps physicians reduce the burden of documentation and billing, allowing more time to focus on patient care. In geriatrics, where patients often have complex, chronic conditions that require detailed records and careful management, administrative work can take up a significant portion of the clinical day.

Empathia provides a personalized AI assistant for each physician, generating highly accurate, compliant clinical notes tailored to individual workflows and specialty needs. Our platform supports a wide range of geriatric care activities, from long-term care planning to chronic disease management, and utilizes AI technology to automate billing and coding workflows.

Built by an interdisciplinary team with backgrounds in medicine, AI, and health systems from Stanford, Caltech, and the University of Wisconsin–Madison, Empathia emphasizes practical, real-world solutions. We also invest in local teams to provide hands-on support and build trusted partnerships with the clinics we serve.

King of Prussia, PA 19406

[Chase.pattison@gmail.com](mailto:Chase.pattison@gmail.com)

[www.genomind.com](http://www.genomind.com)

Genomind helps providers make better medication choices based on a patient's genetics.

In the US each year, providers write nearly five billion prescriptions for over 20,000 FDA-approved drugs, often relying on a "trial and error" approach to manage a patient's medications. This traditional prescribing method causes millions of patients to suffer preventable health complications and adverse drug events every year.

Genomind empowers providers with medication recommendations and prescribing insights based on a patient's unique genetic profile. Genomind eliminates the guessing game in medication management, enabling providers to pair their existing clinical expertise with a precise and personalized treatment plan for every patient. The Permanente Medical Group (TPMG) is the largest medical group in the United States—and one of the most distinguished. Our 9,300 physicians and 40,000 nurses and staff are leading the transformation of health care. Through nation-leading quality, preeminent research, and superior technology systems, we are delivering superior clinical outcomes, and having a positive and often life-changing impact on the health of our 4.4 million patients in Northern California.

In partnership with Kaiser Foundation Hospitals and Health Plan in Northern California, we are a leader in disease prevention, early intervention and world-class specialty care treatment, including cardiovascular, perinatal and neurosurgical care, sepsis survival, and more. Our physicians innovate every day for better outcomes for patients, supported by some of the most comprehensive disease registries in the world and an integrated health care model. From our world-class electronic health record to a seamless care experience for our patients, we set the standard in health care.
